

ALSDE'S WAIVER REQUEST – PROVISION TWO BASE YEAR

The Alabama Department of Education is seeking a waiver from the United States Department of Agriculture Food and Nutrition Services to allow School Food Authorities (SFAs) participating in Provision 2 special assistance certification alternative and reimbursement alternative. The purpose of this waiver is to alleviate the operational burden on SFAs during the COVID-19 school closures. Approval of this waiver will allow ALSDE to approve schools that were conducting a Provision 2 base year in school year 2019-2020 to use data from the months when schools were in full operation to determine the reimbursement percentages for non-base years.
