Alabama CACFP
Serious Health or Safety Hazard
Suspension Policy

- If, during a facility review, the sponsor detects a serious health or sanitation hazard that would jeopardize the safety of the children, the following procedures must be followed:
  - The children must be removed from the imminent danger.
  - The sponsor must take immediate action to inform the State or local health or licensing authority of the health or safety violation.
  - The sponsor should remain at the facility (if safe) until an officer arrives.
  - The State or local health or licensing authority has jurisdiction and will make a determination of the proper corrective action; however, the sponsor should make a determination of the serious deficiency based on the State or local health or licensing authority Office’s determination.
  - The SA will require the sponsor to comply with the State or local health or licensing authority Office’s regulations if meals served at the facility are to be reimbursed.
  - If the State or local health or licensing authority Office deems the children were in imminent danger, but the facility’s license is not suspended, the sponsor must complete a request to suspend funds and issue an SD notice.
  - The sponsor must issue an SD notice and complete a request to suspend funds.
  - The suspension policy and procedures must be followed.
  - If the facility’s license is terminated, the sponsor must update their application with the effective termination date.
