August 28, 2020

MEMORANDUM

TO: City and County Superintendents of Education

FROM: Eric G. Mackey, Ed.D.
State Superintendent of Education

RE: 2020-2021 Teaching Effectiveness (TE) Timeline and Implementation Procedures

Beginning September 8, 2020, the superintendent, evaluation coordinators, or his/her designee should login to the TE application from the AIM portal (https://aim.alsde.edu/) to select the 2020-2021 TE option by Thursday, October 15, 2020. Districts should not change, modify, or abandon their current approved TE Plan used last year. Once logged in, select your option based on the following:

Options:

1. **Teachers self-assess on all 39 TE indicators.**
   a. These indicators are the same ones that were used by EducateAlabama (EA).
   b. Upon completion of the Self-Assessment (SA), teachers will complete their Professional Learning Plan (PLP) within the TE application.
   c. Teachers will next complete Pillar II–Professional Practice within the TE application.

2. **Teachers self-assess on a subset of TE indicators, as selected by the local education agency (LEA) based on its effective teacher definition within their TE Plan.**
   a. The LEA will select from the list of 39 Teaching Effectiveness indicators. These indicators are the same ones that were used by EA.
   b. Upon completion of the Self-Assessment, teachers will complete their PLP within the TE application.
   c. Teachers will next complete Pillar II–Professional Practice within the TE application.

3. **Teachers self-assess on an LEA-developed instrument and complete their PLP and Supporting Evidence within the TE platform.**
   a. All data from the locally developed SA will be maintained under the authority of the LEA.
   b. Upon completion of the Self-Assessment, teachers will complete their PLP within the TE application. A list of general topics tied to the standards will be used to develop the PLP.
   c. Teachers will next complete Pillar II–Professional Practice within the TE application.
4. **Teachers are evaluated fully using a locally developed TE Plan outside of EA.**
   a. The LEA is responsible for the storage and maintenance of all teacher data.
   b. All parts of the LEA’s TE process will be made available to the ALSDE upon request.
   c. Ensure that all Alabama State Board of Education evaluation procedures are
      adhered to professionally.

Additionally, the ALSDE is adjusting the TE platform in the AIM portal by merging EA and
LeadAlabama into one app. This will allow districts more flexibility when accessing the
platform. The recently recorded live trainings are available to share with administrators and
teachers on the Alabama Supercomputer Authority (ASC) YouTube channel at
https://www.youtube.com/channel/UC0hHk4qkiDd7_eDYpKr4xvw/videos.

Also, the link provided to the TE tutorial guides will be available on September 4, after the
TE Platform rolls over for the 2020-2021 school year. To access the TE guides on
September 4, please click on the following link: https://te.asc.edu/TEWeb/Help/HelpPage.

Lastly, the ALSDE will be making modifications to the teacher evaluation system to align
with the United States Department of Education (USDOE) guidelines. See attached TE
Timeline, which is a guide that may be modified as needed by the district administration.

If you have questions regarding the 2020-2021 Evaluation Process, contact Dr. Angie
Pelton at apelton@alsde.edu or by telephone at 334-694-4886.
