• **Universal Design for Learning in PE**
**PROGRAMS**

**14-Week Program to a Healthier You!** - A free, personalized, web-based physical activity and nutrition program for individuals with disabilities and chronic health conditions.

**Champion’s Rx** - A high-intensity daily workout program designed to challenge all ability levels. This workout program is geared towards individuals who are currently active and have access to a fitness facility or minimal exercise equipment.

**CAMPAIGNS**

**Commit To Inclusion**: A global campaign to end the exclusion of people with disability from physical activity and all associated areas. #CommitToInclusion

**How I Walk**: A campaign to rebrand the word walking. #HowIWalk

**NEWSLETTER**

**Educators Quarterly Digest** - A quarterly newsletter highlighting inclusive resources for physical education settings. Sign up online at nchpad.org.

**Kids Korner** - This column was created to engage youth, parents, and professionals working with youth with disabilities.

**Nutrition Spotlight** - This column features nutritional considerations for people with and without disability.

**Training Corner** - This column features articles related to fitness, wellness, and training topics.

**TRAINING**

The NCHPAD e-Learning platform provides online training in various inclusive topics. You can access it at elearn.nchpad.org. NCHPAD has the ability to support physical activity programming for in school, out of school, and community settings that offer access to sports, nutrition, and fitness for students with disabilities. To request a virtual or in-person training or training resources, please contact us.
TECHNICAL ASSISTANCE

NCHPAD offers a free information service on a wide variety of topics related to physical activity, fitness, recreation, sports, leisure, nutrition, disability and chronic health conditions. Contact one of our talented information specialists to help you locate the resources you need. Technical assistance is available between the hours of 9:00 am- 5:00 pm CST on Monday-Friday via telephone 800-900-8086, live chat at nchpad.org, and email at email@nchpad.org.

TOOLS

Community Health Inclusion Index (CHII)
The CHII can be used to assess the level of health inclusion of a community at large, as well as at a wide range of built environment locations that make up a community, including physical activity, education, work, health care, and food sites. Aside from the community-at-large assessment, it also includes both in-person and organizational assessments that can be done on specific sites with a focus on the built environment, equipment, programs and services, staff, and policies. For additional information and access to the CHII contact Yochai Eisenberg at yeisen2@uic.edu.

GRAIDS- Guidelines Recommendations and Adaptations Including Disability
The GRAIDs include recommendations and adaptations to the CDC’s 24 obesity reduction strategies in order to ensure they are inclusive and accessible for youth and young adults with cognitive and physical disabilities. The four focus areas that all of the GRAIDs consider are physical activity, nutrition, culture, and policy. The recommendations and adaptations within each GRAID are broken out by four domains: (1) the built environment, (2) services, (3) instruction, and (4) equipment. For strategies to encourage physical activity or limit sedentary activity among children and youth go to http://new.reduceobesity.org/strategy-04/.
