It is my pleasure to share with you the invitation from the National Youth Science Foundation for two Alabama students to attend the National Youth Science Camp (NYSCamp). The NYSCamp is one of the nation's premier programs in secondary science education. Since its inception in 1963 as part of West Virginia's Centennial Celebration, the summer program has offered educational forums and recreational activities that encourage the development of thoughtful scientific leadership.

The students will be chosen as delegates to represent Alabama at the NYSCamp for the period of June 22, 2020, through July 15, 2020. All transportation, meals, and lodging expenses will be provided. Delegates must be graduating seniors who have demonstrated exceptional academic achievement, leadership in school and community activities, and a genuine interest in the sciences.
