## Focused Monitoring Report

Education Agency: Midfield City

Special Education Coordinator: Ms. Debbie Walker

Focused Monitoring Date: November 4, 2013

Date Mailed to Coordinator: November 8, 2013

Special Education Services Team Leader: Jan Enstrom

Special Education Services Data Analyst: Courtney Utsey

The Focused Monitoring Process is a blend of compliance monitoring and improving outcomes for students. This report is based on findings from the System Profile Information, Special Education Coordinator's Questionnaire, Student File Review, Student Services Review, and any other information obtained during the on-site visit.

During the Focused Monitoring Process, a designated number of student files were reviewed to verify compliance with state and federal requirements. Also, during the on-site process, a small number of students were selected to determine student status and related system performance results. Each SSR provides information to determine if there is a match between the individual student needs and the services being provided to the student by the agency.

The purpose of this report is to provide feedback to the agency in identifying findings of noncompliance that must be corrected as soon as possible, and in no case later than one year from identification of noncompliance. The report also identifies the corrective action that must be taken by the agency as well as the documentation that must be submitted to State Department of Education (SDE). In addition, the report informs the agency of the steps the SDE will take in order to ensure 100% correction of noncompliance with the statutory requirement(s).
