Alabama to Receive $45.5 Million from Emergency Assistance to Non-Public Schools Program (EANS) to Aid Schools Impacted by the COVID-19 Pandemic

MONTGOMERY, AL – Alabama has certified to receive $45.5 million of Emergency Assistance to Non-Public Schools (EANS) funds, and Governor Kay Ivey has charged the Alabama State Department of Education (ALSDE) with the responsibility of managing the funds on behalf of the state.

The EANS program was established as a separate reservation of funds specifically for non-public schools. Congress authorized the EANS program as part of the CRRSA Act’s Governor’s Emergency Education Relief (GEER) fund. These particular funds are a supplement to the original GEER funding – typically referred to as GEER II funding.

In order to receive funding through the EANS program, non-public schools must apply to the ALSDE to receive services or assistance. The ALSDE is responsible for the approval of applicants in a timely manner, and prioritizing services assistance to non-public schools that enroll low-income students and are most impacted by COVID-19.

The EANS funding will be available for application until April 2, 2021. The ALSDE must obligate EANS funding to non-public schools in an expedited, but reasonable, timeframe – but all funds must be obligated no later than six months after being received.

Non-public schools can access both the ALSDE application for the EANS funding, as well as Frequently Asked Questions (FAQ) on the ALSDE website (www.alsde.edu) or at the links below.

Completed applications should be emailed to EANSapplications@alsde.edu.
