

A PowerSchool Unified Classroom™ Product

Schoolology Learning is the leader in K-12 teaching and learning technology.

Schoolology Learning provides the best K-12 learning management system with assessment management to improve student performance, foster collaboration, and personalize learning.

Schoolology Learning is used by 1,600 districts and millions of teachers to improve student performance while enabling equity and access for every student.

Fostering Collaboration: Allow all of the stakeholders in your district—administrators, teachers, students, parents, coaches, and more—to share resources and materials across their class, school, district or the broader Schoolology community.

Increasing Student Engagement: Student performance goes up when students are more engaged in learning. That's why Schoolology was developed—to allow teachers to make learning engaging and interactive.

Impacting Teacher Effectiveness: The best way to make teachers more effective is to give them the time they need to work with students. PowerSchool and Schoolology make teachers more effective by bringing together all of their teaching tools, so it's easier to build courses, share resources, grade assessments, and see a complete view of each student's performance and progress.

Analyzing Data: PowerSchool and Schoolology give administrators and teachers information about what students understand, what they have mastered, and what needs more developing. Bringing district-level data and course level data together ensures resources are allocated properly and no students are falling through gaps.

Creating Equity and Access: Every student is different. PowerSchool and Schoolology ensure that all students have access to the same quality of teaching and learning, regardless of their socio-economic status, special education needs, or any other circumstances.

PowerSchool and Schoology are dedicated to serving the K-12 market worldwide.

PowerSchool and Schoology develop tools specifically designed for the K-12 user.

Districts are more than just their classrooms. That's why our solutions are built for district-wide success.

Learning isn't just about teachers and students. That's why we work to bring everyone together on a unified platform.

Works with All Your Tools and Systems

At PowerSchool, we believe in the simple truth that every student deserves the best opportunities in life.

That's why our mission is to power the education ecosystem with unified technology that helps educators and students realize their potential, in their way. From the office to the classroom to the home, PowerSchool helps schools and districts efficiently manage instruction, learning, grading, attendance, assessment, analytics, state reporting, special education, student registration, talent, finance, and HR. Today, we're proud to be the leading provider of K-12 education application technology supporting over 45 million students in over 80 countries.
