	□Initial review of a proposed program			
	\square Continuing review of a currently approved program			
	\square Resubmission to address unmet standards and/or conditions			

Overview of Each Required Section:

- I. Background Information: Provide background information about the program (checklist; numbers of admissions, completers, and recommendations for certification). The "n"s reported here are used to determine if "n"s reported in data tables are consistent.
- II. Key Assessments, Data, and Data Analysis: Provide an overview of the key assessment in the Section II chart. Key Assessments are typically summative assessments of candidate proficiencies. For each key assessment, included the completed coversheet; assessment instrument, instructions, or test specification information; rubric or scoring guide; and data table(s). Program faculty preparing submissions should use the Rubric for Key Assessments.
- III. Alignment of Standards to Curriculum and Key Assessments: Provide an overview of how the program ensures each indicator is adequately addressed in curriculum and key assessments so reviewers know where to look to for evidence. Reviewers use the course descriptions and assessment documents, not the chart, to determine whether each indicator is adequately addressed.
- IV. Summary of Field Experiences Prior to Internship: Provide an overview of how the program requires candidates to demonstrate developing proficiencies in field experiences prior to internship. Copies of instructions or assignments must be submitted. Assessment information is not required but may be submitted. Field experiences should have clear purposes and reflect increasing expectations. Program faculty preparing submissions should use the Rubric for Field Experiences Prior to Internship.

SECTION I Background Information

- 1. Include the proposed checklist as a separate document.
- **2.** Data on Unconditional Admissions, Program Completers, and Certificates Issued
 Programs should report at least three years of data. If the "n" over three years is less than 10, the program should report five years of data.

SECTION II Key Assessments, Data, and Data Analysis

- 1. Assessments #1-#5 are required. No more than eight key assessments may be submitted.
- 2. Complete a coversheet for each key assessment and attach it to the instrument or instructions, or test specifications; rubric or scoring guide; and data tables(s). Submit these documents in a Key Assessments folder on the flash drive and a section of the binder.

⁷ Examples of appropriate assessments for planning instruction include developing lesson or unit plans that address the breadth and depth of the teaching field, individualized education plans, needs assessments, or intervention plans.

⁸ Examples of appropriate assessments for effect on student learning include those based on samples of student work, portfolio tasks, case studies, and appropriate follow-up studies.

⁹ Examples of optional assessments addressing program standards include but are not limited to evaluations of field experiences, case studies, specific portfolio artifacts, complete portfolios, and follow-up studies.

SECTION III Alignment of Standards to Curriculum and Key Assessments

Identify the curriculum components and key assessments listed in Section II that address the standard and indicators. Only courses that directly address indicators should be listed.
