

COMPLIANCE VERIFICATION FORM

Developmental Delay (ages 3 – 9)

07-2 AAC Criteria

Student's Name _____ Reviewer _____ Date _____

	Developmental Delay (age 3 to 9 years) Evaluation Requirements	ELIG RPT		N/A	COMMENTS
		YES	NO		
	1. Vision Screening P____ F____ Follow-up_____				
	Hearing Screening P____ F____ Follow-up_____				
	2. Standardized, norm-referenced instrument(s) that measures all five developmental domains (e.g., adaptive, cognitive, communication, social or emotional, and/or physical development). (Significant Scores: 2 standard deviation [s.d.] below in one area or 1.5 s.d. below in two or more areas). (report standard scores)				
	3. Additional standardized or criterion referenced instrument(s) that support one domain of delay (70 or below), or support two domains of delay (77 or below). (Significant Scores: 2 standard deviation [s.d.] below in one area or 1.5 s.d. below in two or more areas). (report standard scores)				
	4. Evidence of adverse affect: (a) Written summary of a family interview documenting strengths, needs, and concerns (for preschool children suspected of DD, the <i>Family Focus Interview</i> must be used) and				
	(b) Written summary of an observation of the child in an age-appropriate environment (for preschool children suspected of DD, the <i>Natural Environment Survey</i> must be used).				

The following information must also be included on the eligibility report:

For Initial Evaluation

Prong 1

Yes No

Documentation that the child was provided appropriate instruction in regular education setting or natural environment

Documentation that instruction was delivered by qualified personnel (does not apply to Preschool)

Prong 2 (Does not apply to Preschool)

Data-based documentation of repeated assessments of achievement at reasonable intervals reflecting formal assessment of student progress during instruction

Documentation above was provided to the parent

At Every Reevaluation

Documentation that instruction was delivered by qualified personnel
