2021 – 2022
PROGRAM GUIDE FOR:
HEALTH SCIENCE CLUSTER
AND MIDDLE SCHOOL

ALABAMA STATE DEPARTMENT OF EDUCATION
CAREER AND TECHNICAL EDUCATION
LAURA BAILEY, HEALTH SCIENCE ADMINISTRATOR
BECKY CORNELIUS, EDUCATION SPECIALIST
LISA McGrady, EDUCATION SPECIALIST
RONDA HANNAH, ADMINISTRATIVE ASSISTANT
(334) 694-4750
The Health Science cluster provides students with essential knowledge and skills for pursuing careers in the following five pathways: Therapeutic Services, Diagnostic Services, Health Informatics, Support Services, and Biotechnology Research and Development. Rigorous and challenging content may include a variety of instructional strategies, work-based learning experiences, and simulation.

**Courses highlighted in yellow are shared with other clusters. See “Shared Courses” table on page 3 for additional details.**

---

### Health Science Program

(Must teach three courses from this program list within two years)

The Health Science Program instructional content incorporates project- and problem-based healthcare practices and procedures to demonstrate knowledge and skills fundamental to a variety of healthcare careers. Knowledge and skills are reinforced and enhanced through co-curricular activities and participation in HOSA – Future Health Professionals and work-based learning opportunities that are age and grade appropriate.

* Emergency Services & Management, Forensic Science and Crime Scene Investigation, Introduction to Veterinary Science, and Veterinary Science have updated courses of study. You must teach using the 20-21 updated courses of study found on alabamaachieves.org.

**NOTES:**
1. Foundations of Health Science is the required prerequisite course for this program.
2. All courses are one credit unless specified.
3. Program must provide safety training for classroom, lab, simulation, and clinical settings.
4. Successful completion of one credit (minimum) in Health Science coursework is required prior to placement of a student in a clinical/internship. A program receiving a waiver for the Foundations prerequisite is not exempt from this requirement.
5. Programs are encouraged to seek local board approval for all clinical internship forms and contracts.
### SREB AC Health Informatics Program

This program merges information science, computer science, and health care. Students use information technology, data analysis software, and statistics to address a range of health related topics. Knowledge and skills are reinforced and enhanced through participation in HOSA – Future Health Professionals and project-based learning opportunities that are age and grade appropriate.

(Contact SREB for additional information. This is a purchased curriculum.)

### PLTW Biomedical Science Program

The PLTW Biomedical Science program curriculum allows students to investigate the roles of biomedical professionals as they study the concepts of human medicine, physiology, genetics, microbiology, and public health. Knowledge and skills are reinforced and enhanced through participation in HOSA – Future Health Professionals and project-based learning opportunities that are age and grade appropriate.

(Contact PLTW for additional information. This is a purchased curriculum.)

#### Health Science Middle School Program Courses

The Health Science Middle School Program instructional content is designed to allow students to explore careers, terminology, basic skills, and technologies associated with each pathway in the Health Science career cluster. Knowledge and skills are reinforced and enhanced through participation in HOSA – Future Health Professionals and project-based learning opportunities that are age and grade appropriate.
