In the *System/School Profile* section, you will find information about the system or school that you have selected. That information will include the overall score and letter grade earned (note: letter grades were not issued for the 2019-2020 and 2020-2021 school years due to waivers received from the U.S. Department of Education (USDOE) in response to the COVID-19 pandemic). You will also find physical addresses as well as links to the system or school's website.

If you are viewing system level information, you will see the number of schools and number of students within the system. You will also see the State Board of Education district and congressional district of the system, based on the physical address of the system's central office.

If you are viewing school level information, you will see the number of students, and grades taught. You will also see the poverty, Title I, and Support School status of the school (if applicable). Based on the physical address of the school, you will see the State Board of Education district and congressional district of the school.

If you would like to export the data for the school or system that you are viewing, click the blue "Export" button in the profile section. Clicking that button will allow you to view, filter, and export the data from the report card for the currently selected school or system as shown below. Exporting all data from the state, school, and district levels is covered under the "Supporting Data / Extract" portion of this document.

Accountability Indicators

The *Accountability Indicators* section contains the results of the Alabama Accountability System. Information on how the indicators are calculated can be found in the Other Supporting Information Section of the report card.

There are six (6) indicators within the Alabama Accountability System and the indicator scores are displayed within the Accountability Indicators section.

Each indicator also displays, when expanded, the indicator scores for applicable subpopulations of students within the system or school.

Demographics

The *Demographics* section contains demographic information about the students within the system or school being displayed. Just as with the Accountability Indicators section, the option to view subpopulation information is available by clicking "Subpopulations" to expand the report.

Glossary of Terms

The Glossary of Terms is provided to give the user definitions for the terms displayed throughout the Alabama Education Report Card. These terms can also be seen as tool tips by hovering over indicator dials within the report card.

Business Rules

Business Rules are provided for the sections of the report card.

Supporting Data / Export

All data behind the information displayed on the Alabama Education Report Card can be found in Excel form in the Supporting Data portion. Each individual section of the report card has an "Export" feature that will export the data on the screen for that section. Users can select the data they would like to view and the school year for the data to populate a data grid of the information. Users are also able to filter within the data grid or export the data to an XLXS or CSV file (please note some files are only available as CSV due to their large size).
