Required Narratives

How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

* First, Linden City Schools will use these funds to help prevent or at the very least slow the spread of Covid within the District. Safety equipment will be purchased to help in the efforts to socially distancing and monitor the health of students, as well as faculty and staff. Also, additional construction will take place to help with preventative measures when students have symptoms of covid or other infectious diseases.

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

* All resources purchased will be research based materials or technology. Additional staff will be hired to help address the learning gap that has widen since the beginning of this pandemic. These addition resources and personnel will address the needs of all students. Evaluation protocols will be established to ensure the needs of all students are being meet.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

* Linden City Schools does not discriminate against any person for any reason. All resources purchased will be research based materials or technology. Additional staff will be hired to help address the learning gap that has widen since the beginning of covid. These addition resources and personnel will address the needs of all students regardless of gender, race, color, national origin, disability, and age . Evaluation protocols will be established to ensure the needs of all students are being meet.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?

* Audits will be done annually by and independent firm to ensure funds are being used appropriately.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

* Surveys will be done periodically to ask for suggestions or comments from stakeholders. Student assessment reports will be gathered, disseminated and results made available to parents to address learning growth and/or needs.

ARP ESSER State Reserve Allocation to Address Loss of Instructional Time

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students' social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

Required Narratives

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

* First, Linden City Schools will use these funds to help prevent or at the very least slow the spread of Covid within the District. These funds will be used to fund our extended day instruction, resources, and personnel. All resources will be research based instructional material or technology. Edgenuity and I-Ready are two of the resource materials.

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

* District will identify the students with the most needs by pretesting all students with the I Ready assessment tool. The results will be disseminated to identify students with the greatest learning loss.

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

* The District will identify the students with the most needs by pretesting all students with the I Ready assessment tool. The results will be disseminated to identify students with the greatest learning loss. The results/data will guide the instruction for each student.
