How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?

* Sheffield City Schools plan to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning through our FY22 reopening plan, procedures and protocols. The District will plan and implement strategies to provide students with the most appropriate and meaningful learning atmosphere possible. To ensure the quality of instruction and learning, administration, teachers, students, parents and community will be made aware of expectations and decisions will be made based on their input in regards to what is best for the school district and the community. The SCS back to school plan will provide information on screening protocols, health protocols, sanitizing and disinfecting, physical health and well-being, social and emotional wellbeing of students, child nutrition guidelines, a daily schedule to reflect suggestions from CDC and ADPH. Additionally, the plan includes guidance on health services, transportation, and other pertinent information for students to return to in-person learning. The Sheffield City Schools System will make decisions concerning physical distancing, mask-wearing, and contact tracing as data and information becomes available about COVID-19 cases from local public health officials, school nurses, and the ADPH. The school district will implement other protocols if it becomes necessary. The Superintendent and each school administrator will communicate any changes in the plan and protocols to teachers, students, families, and community members. Sheffield City Schools may modify this guidance based on changes to the ADPH and CDC guidance Recommendations or as conditions may warrant. The plan is fluid and subject to change due to data from the federal, state, and local officials.

How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?

* Sheffield City Schools will ensure that all materials, strategies and services are evidenced-based. Interventions will meet the definition of high quality and be appropriate to address all academic, social emotional, and mental health needs for all students impacted by the COVID-19 pandemic. The district will make an effort to protect instructional time in all schools as evidenced by the district calendar and exceeding the minimum 1080 instructional hours. The district will include times for schools to have data meetings outside of instructional time in order to analyze data. All subgroup data will be analyzed to include subgroups from different ethnic backgrounds, children from low-income families, children with disabilities, English Learners, gender, migrant students, homeless students, and any child in foster care. Each individual school will conduct a Needs Assessment that will help identify the areas of academic, social emotional, and mental health needs of their students. Subgroup data will be disaggregated and individualized. Each schools ACIP will have goals, strategies and action steps to support the learning needs of identified areas and groups of concern. Each school will monitor progress through monthly data meetings that will work in conjunction with the Response To Intervention Process in place. Additional data components to be utilized will be survey data, school assessments, state assessments, individual student plans and status of health and operation of the community and families.

How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?

The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.

* The Sheffield City School System does not discriminate on the basis of race, color, national origin, sex, disability, or age in its programs and activities and provides equal access to the Boy Scouts and other designated youth groups. Sheffield City

Schools will designate persons to handle inquiries regarding the non-discrimination policies within the district. The district will conduct a needs assessment and give stakeholders the opportunity to provide input and be made aware of how the funds are being utilized. Sheffield City Schools will remove barriers in the ESSER III program by planning, monitoring, and amending items in the program based on stakeholder needs. It is the goal of the District to utilize and maximize ESSER and GEER funding to create equal access of participation in activities and lessen barriers for all students, teachers, and other program beneficiaries with special needs.

How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?

* The district's CSFO and Federal Programs Coordinator will review monthly expenditures with budget analysis reports. All purchase orders will be reviewed and approved by Federal Programs Coordinator and CSFO before approval. CSFO will monitor the expenditures and revenues posted to financials for accurate coding and expenditure amounts. All financials are posted to LEA website monthly for community access. The district will follow all federal, state, and local guidelines on all expenditures.

How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?

* Sheffield City Schools will actively request input from the stakeholders within the district. The District acknowledges the importance of stakeholder input and understanding of the utilization of ARP ESSER and other relief funds. Parent and community input will be solicited through surveys and representation on school and district advisory committees. Initial plans, as well as amendments, for each funding source will be shared at public budget hearings, Federal Advisory Meetings, community organization meetings and publicly posted on the District's website. Individual schools will gather input from their stakeholders during their annual Title I parent meeting, quarterly ACIP meetings and other school-initiated connections between the school and the home. Input from parents, families, and community will be recognized and considered when creating events to engage and support families during these challenging times. In the event traditional channels of engagement are interrupted, the District will develop emerging best practices like connecting virtually, provide teaching toolkits, access to classroom management systems, and providing parent/school to home liaison for troubleshooting and technical issues.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs

Required Narratives

* Sheffield City Schools will utilize ARP ESSER State Reserve funds by partnering with community-based organizations and increase learning opportunities to support our students impacted by the pandemic. All subgroups were impacted by COVID-19. To ensure that we are meeting the needs of all student subgroups, all subgroups will be invited to participate in our programs at no cost. The district will also invest into programs to address the social emotional learning needs of all students. the district will utilize real-time data as a means to address the academic needs of students due to the loss of instructional time. The district will partner with the Rescue Me Project, an at risk leadership program for males and females.

Sheffield City Schools Summer Reading Program will implement the developmental, accelerated, and preventive reading program requirements that will help ensure that students can read on grade level. The goal of the Summer Reading Camp will be that the students will show growth in the area of literacy and in turn be successful in all subjects. We will assess regularly using STAR assessments to plan for instruction and intervention to ensure that students demonstrate progress toward mastering grade level standards. TPS and LEW will also use the following programs in their Summer Learning Program: Reading Horizons, and DIBELS to progress monitor. Sheffield City Schools Secondary Schools will remediate and enrich students in ELA and math.

Indicate the data sources the LEA used to identify the students most in need of the program(s) and the extent to which the LEA will evaluate the impact of the program(s).

* Sheffield City Schools will use the following data sources:

ACAP Summative
 STAR Assessments
 EOY Assessments
 Graduation Rate
 Attendance Records

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

* Sheffield City Schools will use attendance data from our SIS to determine students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years. We will also utilize an Attendance Clerk and Parent Liaison to keep in close contact with parents of students who are having excessive absences. We will also use data from our state and local assessments to help determine which students are in need of additional support. On-going benchmarks and assessments will address potential learning loss due to the pandemic.
