**6. Section 427 of the General Education Provisions Act Assurances**

**Q:** What steps does the LEA propose to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the program?

**Revised Response:** Learning barriers occur in cases of poverty, isolation, illness, and other personal family situations. By providing equitable access and expanded opportunities for under-served populations, students gain greater access to learning through more tools, better understanding, and necessary equipment. Residents in rural counties like Lauderdale experience intermittent or no affordable or even available internet capabilities. Purchasing equipment will expand the reach of learning to our students, families, and staff. When barriers arise, the service need will be addressed as quickly as possible seeking solutions to meet student needs.
