2. Allowable Service(s) Assurance

The LEA Superintendent or his/her authorized representative assures or certifies that:

How will the LEA determine the most important educational needs as a result of COVID-19?

Pike County Schools conducted surveys and sought input of administrators on the most dire educational needs. Parents were surveyed to find out technology needs of students. The survey inquired about device needs and Internet access needs. Over 1300 parents responded to the survey. In addition, after reflecting on Pike County Schools’ response to the March crisis, an internal needs assessment was conducted which focused on acquiring a learning management system and teacher training on such a platform.

How does the LEA intend to assess and address student learning gaps resulting from the disruption in educational services?

Pike County Schools will identify instructional standards missed during the last two and one-half months for the 2019-2020 school year. We will use teacher input, assessment data and an analysis of take home information. Pike County Schools is in the process of devising a plan to remediate deficit skills and standards for all students. This remediation will be targeted for all students. In addition, when students return in the fall, Pike County Schools will administer pre-tests in core areas to better identify student learning gaps.
