Revised 1/27/2021

REVIEW ITEM:	YES	<u>NO</u>	<u>N /A</u>
11. Federal Fund expenditures are not included in the unrestricted / cnp indirect cost pool.	Y	N	N/A
12. Are the adjustments made on page 5 documented and are they in legal compliance with Title 2 CFR Part 200 (previously OMB A-87 Circular)?	Y	N	N/A
a. Auditing (object 323) paid from a general fund source is generally an allowable cost but is sometimes in excluded or disallowed because of the function code. Ensure eligible auditing costs are included in the indirect column. Single Audits - if the expenditure is allocated between both federal and local fund sources, the local fund source portion cannot be included in the indirect column.	ot Y	N	N/A
b. Legal expenditures (object 325) retainers and expenses required in administering Federal Programs are allowable. Costs for cases involving the Federal government and LEA Board of Education services are direct costs. Costs for services related to capital outlay should be excluded. Legal expenditures are automatically pulled to the direct column unless coded to an excluded function code or excluded fund source.	Y	N	N/A
c. Advertising (object 363) - may be an allowable indirect cost but not if for self promotion of LEA (such as ads with the Chamber of Commerce and lobbying) or construction bid advertis Advertising expenditures are automatically pulled to the direct column unless coded to an excluded function code or excluded fund source. Please refer to the federal regulations for other examples.		N	N/A
d. Adjustments have been made for expenditures made under the flexibility allowance that are not coded to Fund Type 11 but are allowable in the indirect cost pool. Please note the expenditure would have been coded to an account number/object code/fund source allowable in the indirect cost pool; however, the fund type kept the expenditure from pulling to the indirect cost column.	e Y	N	N/A
e. LEA's receiving Foundation funds for State Supported Special Education Facilities (Cost Center 3999) should exclude these amounts if the transaction is handled as a flow through. LEA's handling the administrative duties themselves would leave the expenditures as distributed.	<b>Y</b>	N	N/A
f. Fines and Penalties against the LEA are usually coded to object 961 which automatically pu to the excluded column. An adjustment is needed for any fines and penalties against the LI which are not coded to object 961.		N	N/A
<ol> <li>Does the Adjusted Pool and Base Amounts row balance back to the approved 2021 Exhibit F-II? (The total expenditure amounts must agree).</li> </ol>	Y	N	N/A
14. Utility expenditures (object codes 37X) are recorded in Fund Source 5101 for the LEA's completing the CNP Rate Calculation page. If no, they are not eligible for the lower CNP IDC Rate and no amounts should be entered on the lines at the bottom of page 5. The LEA should have separate utility meters in their lunchrooms or have had a cost study done by Alabama Power if they are applying for the CNP Special Rate.	Y	N	N/A

## Indirect Cost - Restricted Rate Application - Fiscal Year 2021 Data

21. Does the indirect cost expenditures on page 8A - Trend Analysis - Restricted Unadjusted Indirect for Fiscal Year 2019, 2020, and 2021 match the Restricted Indirect Cost Rate Data-Unadjusted for Fiscal Year 2019, 2020, and 2021 by line item? (The expenditures for all three years must be entered from the data report. Page 9 of the proposal will pull the indirect cost number from page 8A.)
Y **REVIEW ITEM:** YES NO N/A 22. Does the carryforward entered on page 8A - Trend Analysis - Restricted Unadjusted Indirect for Fiscal Year 2019, 2020, and 2021 match the carryforward listed on the FY2021 and FY2022 Approved Indirect Cost Proposals for Fiscal Year 2019, 2020, and 2021? γ Ν N/A 23. Does the direct cost expenditures on page 8B - Trend Analysis - Restricted Unadjusted Direct for Fiscal Year 2019, 2020, and 2021 match the Restricted Indirect Cost Rate Data-Unadjusted for Fiscal Year 2019, 2020, and 2021 by line item? (The expenditures for all three years must be entered from the data report. Page 9 of the proposal will pull the direct cost number from page 8B.) Υ Ν N/A 24. Does the "Proposed Pool and Base Amounts. . . " row balance back to the 2021 Restricted Indirect Cost Rate Data - Unadjusted report pulled from the upload system? (The totals in each cost category must agree. The only manual entry on the "Proposed Pool and Base Amounts..." row will be the Excluded Costs Column. The other columns will manually pull from the Trend Analysis). Υ Ν N/A 25. Federal Fund expenditures are not included in the restricted indirect cost pool. γ Ν N/A 26. Have the expenditures which would constitute supplanting (Expenditures Not Allowed -Column B on the report) been moved from the Indirect Costs column to the Expenditures Not Allowed column on the application? (Listed below are the most common). Υ Ν N/A a. CSFO salary, benefits, and costs - Object Code 116 is automatically pulled out but the benefits and those LEA's that use a different object code for their CSFO will need to make a manual adjustment. This will need to include any Compensation for Unused Leave -Object Code 195 plus fringe benefits. γ Ν N/A b. The Technology Coordinator amount provided by the state in Fund Source 1221 is automatically pulled out. Any amount paid from other fund sources for the Technology Coordinator should remain where the coding dictates it be. Υ Ν N/A c. The Superintendent and Executive staff salary, benefits, and costs - Account Code 62XX is automatically pulled out. Any expenditures charged to 62XX that are not supplanting would need to be manually moved to the appropriate cost pool (auditing, legal fees, etc.). γ Ν N/A d. Operations & Maintenance Services - Account Code 3XXX - is automatically pulled out. Any expenditures charged to 3XXX that are not supplanting would need to be manually moved to the appropriate cost pool. Documentation would include a space study showing what percentage of total work area space is dedicated to allowable areas such as accounting, purchasing, personnel, etc. γ Ν N/A e. Utilities - Object Codes 37x - are generally a direct cost for the restricted rate calculation. Utilities (object 37x) coded to function codes 1xxx, 2xxx, 4xxx and 61xx are automatically pulled to the direct column. Utilities (object 37x) coded to 3xxx and 62xx are automatically pulled to the not allowed column. Utilities (object 37x) coded to 63xx, 6410, 6420, 6430, 6450, 6490, 65xx, and 69xx will pull to the indirect column and verification is needed the expenditures are allowable indirect costs. N/A Ν
