How will the LEA determine the most important educational needs as a result of COVID-19?

The district leadership team will review the district's Needs Assessment, recent parent/student surveys, Title I surveys, district technology plan, and local expenditures due to COVID-19 and prioritize expenditures with the CARES funds. The team's goal is to provide services to students in a timely and purposeful manner and provide ongoing support to students and families during the pandemic to meet social/emotional and academic needs. The district will also provide funds for special education services for students with disabilities to address significant regression due to the extended school closure as a result of COVID-19. These funds will support related service providers used throughout the district. Based on the data, the team will determine internet access and the availability of technology to students. The data will also help determine which method of delivery each student and family will request for the beginning of the new school year. The local expenditures for schools and the district will be reviewed in order to follow compliance with federal and state guidelines for the reopening of schools. It is evident through the recommendations and requests that technology hardware, software, professional development, purchased services, and sanitation materials are needed to address teacher training and gaps in students' educational learning. Additionally, PPE and necessary equipment and supplies are in need to maintain proper sanitation requirements. The district will also purchase needed equipment and supplies to establish isolation rooms at each school site to comply with state and federal regulations.
