PROGRAMMATIC, FISCAL, AND REPORTING ASSURANCES

The United States Department of Education (USED) has approved the application from the State of Alabama for ESSER funds under the CARES Act. The availability of funds is from 4/29/2020 to 4/29/2021. LEAs will be allowed to expend funds until 9/30/2022. Pre-award costs to the ESSER fund will be allowed for allowable cost incurred on or after March 13, 2020.

2. Allowable Service(s) Assurance

The LEA Superintendent or his/her authorized representative assures or certifies that:

The LEA will use ESSER funds for activities allowable under section 18003(d) of Division B of the CARES Act. The United States Department of Education **does not** consider the following to be an allowable use of ESSER funds, under any part of 18003: 1) subsidizing or offsetting executive salaries and benefits of individuals who are not employees of the SEA or LEAs or 2) expenditures related to state or local teacher or faculty unions or associations.

How will the LEA determine the most important educational needs as a result of COVID-19?

The Marshall County School district developed a teacher survey to gain academic insights and gather feedback regarding distance learning. Only 66% of teachers serving students in grades 6 through 12 responded that they have the resources needed to work with their students. With teachers serving students in kindergarten through grade 5, the percentage dropped to 49%. In addition, teachers responded that teaching students remotely had been more difficult than expected with 31% and 47% responding respectively.

With the survey results, the district leadership team determined that additional technology would best meet the needs of teachers and students in Marshall County Schools. Additionally, we felt PPE and sanitation supplies are important.

How does the LEA intend to assess and address student learning gaps resulting from the disruption in educational services?

The Impact of lost instructional time is anticipated and the district will be prepared to adjust curricula and instructional practices accordingly. Students' learning gaps will be assessed and individual learning paths established.

Via the purchased technology, tiered and intervention instruction will be provided to respond to the academic needs of at-risk students. This will be especially important during the times of intermittent closures due to Covid-19 outbreaks.

How will the LEA use ESSER funds to promote remote learning?

The district will purchase educational technology, including hardware, software, and connectivity for students to aid regular and substantive educational interaction between students and teachers. The technology will assist teachers in creating, managing, and delivering content to students.

This technology will allow the district to implement summer learning and supplemental after school programming to address the needs of all students.
