How will knell Addetermine the most importance due that threads as nest the full of COVIDS 97

Our Administrators will survey their teachers and various stakeholders to complete a school needs assessment. The administrative and technology team will meet at the central office to review the needs of each school and determine the greatest needs for the system.

How does the LEA Intend to assess and address student learning gaps resulting from the disruption in educational services?

We will administer grade level screeners using i-Ready for grades K-9. We will compile this data with our 2019-2020 mid-year data and determine students who are functioning below grade level. All students will be provided with appropriate technology and learning materials to address the identified needs. All teachers will review the standards covered by educational packets or Google Classroom assignments instead of face to face instruction to ensure students are ready to move on to new material.
