Overview

The **Senate Bill 334, Alabama Act 2009-564** requires that students must attend school until the age of seventeen (17) and that a Student Exit Interview must be conducted in an attempt to resolve circumstances impeding a student from staying in school. This implementation guide supports consistency with directions for the Student Exit Interview process and facilitates a positive conversation among the student, parent/legal guardian, and advocates for student success. The conversation should address reasons the student is wishing to leave school with resolutions to enhance an academic/behavioral workable situation with graduating on time and/or serving as a productive citizen as the end result.

As a last attempt to provide wraparound support to the student and family, a packet of resources from the community agencies and partners should be shared with the student and parent/legal guardian. It is suggested that some form of follow-up be conducted to enlighten your school system as to what is happening to these students. The information ascertained during the Student Exit Interview process should be filed with the exit interview coordinator or the local education agency (LEA) designee and placed in the student's cumulative record at the end of the school year. An entry on the Student Exit Interview composite may serve as summary documentation.

Prior To Student Exit Interview

A variety of resources are provided to our students to discourage the decision to drop out of school. If a student and parent/legal guardian insist on signing a withdrawal form, the following tasks will be performed to begin the Student Exit Interview process:

- Receive counsel by school staff to discourage withdrawal.
