Issue Date: 11/29/2018
Effective Date: 11/29/2018

Narrative:

Section Program writes a contract that includes all required clauses and provisions per §200.326 CFR, following the Contract Checklist for all contracts needed. Section Program then routes five copies of the contract, with a routing slip attached, to Section Head for division approval.

One month prior to the Legislative Oversight Contract Review Committee meeting, Section Head signs the attached routing slip and contract (if needed) and forwards the five copies of the contract to Fund Accountant for review.

Fund Accountant ensures all Contract Checklist items are included with the contract and program budget is available to cover the contract. Once complete, Fund Accountant forwards five copies of the contract to Contract Accountant.

Contract Accountant assigns a contract number and enters the contract name, number, date, and purpose into the Contract Database MS Excel spreadsheet. Contract Accountant retains one copy of the contract and sends the other four copies to Deputy State Superintendent of Administrative and Financial Services ASA.

Deputy State Superintendent of Administrative and Financial Services ASA logs received contract information, tracking the date the contract was received, contractor’s name, contract number, date, and amount. Deputy State Superintendent of Administrative and Financial Services ASA then forwards the four copies of the contract to the legal department (General Counsel).

General Counsel signs the contracts and initials the routing slip to signify that the legal department has reviewed and deemed all requirements to be met. General Counsel returns the contracts to Deputy State Superintendent of Administrative and Financial Services ASA.

Deputy State Superintendent of Administrative and Financial Services ASA ensures the contracts have been signed by the vendor and returns any unsigned contracts to originating Section Program for vendor signature (as required). Once Section Program has returned the vendor-signed contracts, Deputy State Superintendent of Administrative and Financial Services ASA signs contracts and forwards the four signed copies of the contract to State Superintendent of Education ASA for review and signature.

State Superintendent of Education ASA reviews and signs contracts and returns signed contracts to Deputy State Superintendent of Administrative and Financial Services ASA.

Deputy State Superintendent of Administrative and Financial Services ASA sends signed contract to Contract Review Committee Clerk prior to the meeting date listed on the posted Contract Review Committee meeting agenda. Deputy State Superintendent of Administrative and Financial Services ASA sends originating Section Program a contract review notification letter and contract received memorandum and sends State Board a packet with contract review notification letter and Contract Review Report Form.

Section Program meets with Chairman of the Contract Review Committee to explain the contract.

At the Legislative Oversight Contract Review Committee meeting, Contract Review Committee reviews proposed contract with a representative from Section Program in attendance to answer any questions. Note: Contract Review Committee may hold the proposed contract for 45 days or request more information.

Once contract has been approved, Contract Review Committee Clerk sends it to Governor’s legal office for review. Note: Contracts have NOT received final approval at this point. Vendors are not to perform any professional services until State of Alabama Comptroller has approved the contract.

Governor’s legal office reviews and approves the contract and obtains Governor’s signature. Governor’s legal office sends signed contract to Deputy State Superintendent of Administrative and Financial Services ASA.
Deputy State Superintendent of Administrative and Financial Services ASA sends signed contract to Contract Accountant.

Contract Accountant distributes one copy of the contract to Fund Accountant and two copies of the contract to Section Program (one to file and one to send to the vendor). The last copy of the contract is filed in Accounting with the received signed contract and the previously retained copies.

Fund Accountant sends Fund Information MS Excel spreadsheet to Contract Accountant.

Contract Accountant enters Master Agreement (MAP1, ISA, or MAPIT) in STAARS and attaches a scanned copy of the signed contract to it.

State of Alabama Comptroller reviews Master Agreement and contract in STAARS. Contract Accountant reviews STAARS to determine approval status of Master Agreement. Comptroller may either approve the contract or deny the contract based on legal reasons or on missing documentation.

For contracts denied based on legal regulations per State of Alabama Administrative Code, Contract Accountant notifies the Fund Accountant. Fund Accountant then notifies the originating Section Program of the contract denial. Section Program will need to route the contract through the Reviewed Contracts Procedure again for approval, either to start a new contract or to add an amendment to the contract.

For contracts denied due to missing supporting documentation, Contract Accountant may work in conjunction with Fund Accountant to acquire documentation. Contract Accountant uploads missing documentation into STAARS.

Once contract is approved by State of Alabama Comptroller, Contract Accountant enters an encumbrance DOP1 into STAARS and vendor may begin working the contract.

Section Program reviews and signs the invoice for the contract and forwards the invoice to Fund Accountant. The vendor may send the invoice directly to Accounting; however, the invoice must be sent to Section Program for review and approval before it may be processed.

Narrative:

Payroll Section begins processing payroll approximately three days after the end of the pay period. For those employees required to maintain a timesheet, Payroll reviews leave documented on timesheets to ensure matching with Personnel Leave System totals. If leave totals do not match, Payroll personnel notify Section employee to complete Leave Request/Approval Procedure. All leave corrections must be received two days prior to payday. Anything received after the cut-off date will appear in the next pay period.

Payroll sorts employee timesheets based on fund source and sends to Fund Accountant assigned to fund source. Fund Accountant calculates the percentage of each employee’s pay period hours to correct fund and provides the percentage calculations to Payroll to meet the requirements of §200.430(i)(1)(i) CFR, §200.430(i)(1)(vii) CFR, and §200.431(b)(2) CFR.

Payroll manually enters calculated percentage for each employee in GHRS and into internal Personnel System (A7), incorporating records into the Departments official records per §200.430(i)(1)(ii) CFR and ensuring all data entry is completed by pre-determined GHRS monthly cut-off dates for payroll provided in the monthly calendar. All edits must be made prior to the cut-off date. Pay data for employees funded from one fund code is stored in GHRS and does not need to be manually entered each pay period.

GHRS system interfaces with STAARS system to upload payroll data for both employees who keep a timesheet and those who do not.

State of Alabama Comptroller processes payroll via STAARS, contacting Payroll as needed with any questions, creating an EFT for all employees. Checks are not issued for payroll and are only used in unique circumstances. Employee logs into EMap to view paystub data.

Note: Personnel who are paid from a single fund code are not required to maintain a timesheet to Payroll for processing.

Narrative:

Section employees request leave approval in advance of the date of intended leave, either using a paper leave form or requesting the leave in Leave Request System.

If choosing the paper Leave Request Form, Section employee completes the form and sends it to Section Supervisor. Section Supervisor signs the form to signify approval. Section Supervisor sends signed, approved Leave Request Form to Section Leave Entry Personnel. Section Leave Entry Personnel manually enter approved Leave Request Form data into the Personnel Leave System.

If choosing to request leave via the Leave Request System, Section employee completes the electronic Leave Request Form and submits it. Upon successful submission, Section Supervisor receives email notification from the Leave Request System that a Leave Request Form is ready for review. Section Supervisor reviews Leave Request Form in the Leave Request System and digitally signs for approval.

Narrative:

Annually, Payroll requests a list of all Section employees funded under more than one fund source code and are required to complete a timesheet for the upcoming fiscal year by Fund Accountants. Payroll develops timekeeping MS Excel spreadsheets for Section employees identified by Fund Accountants and emails timesheets to Fund Accountants based on assigned fund codes and copies the Section ASA on the email as well. These timesheets are developed to provide a method to accurately capture and reflect the work performed by the employee for each fund source as specified per §200.430(i)(1) CFR and are incorporated into the official records of the department to meet the requirements of §200.430(i)(1)(ii) CFR.

Section ASA distributes timesheet to all Section employees required to complete a timesheet for their specific programs.

Section employees who are not 100 percent funded by a single fund code manually complete a timesheet for each pay period to document amount of time working on each program assigned to daily, also notating any leave taken, to meet the requirements of §200.430(i)(1) CFR. On the assigned date at the end of the pay period, Section employee sends timesheet to Section Supervisor to review and sign.

Section Supervisor reviews timesheets and works with Section employee to ensure the timesheet reflects the total activity for which the employee is being compensated per §200.430(i)(1)(iii) CFR for both Federal and non-Federal sources §200.430(i)(1)(iv) CFR. Section Supervisor sends signed, approved timesheet to Payroll by the third business day after the end of the pay period.

Self-Certification Procedure

Issue Date: 11/26/2018
Effective Date: 11/26/2018

Narrative:

ALSDE employees who are paid 100 percent from one fund source code may be required to self-certify or have a certification letter written on their behalf. Note: Any employee who is paid from multiple fund sources is not required to self-certify.

If an ALSDE employee is paid 100 percent from Disability Determination Services (DDS) funds, DDS Assistant State Superintendent prepares and signs a semi-annual Certification Statement, stating all employees paid from DDS fund code perform 100 percent of work within the DDS program. DDS Assistant State Superintendent sends Certification Statement to Payroll to keep in their files.

ALSDE employees paid 100 percent from one fund source code and do not provide administrative services for the department (e.g., Accounting, Human Resources, Operations, Communications, Legal, LEA Accounting, etc.) receive a paper Certification Form each quarter from Payroll. The employee completes the form and gets Section Supervisor’s signature. Section Supervisor sends the completed, signed form to Payroll to keep in their certification files.
