## Performance Level Descriptors (PLDs) for Grade 2 Reading

The PLDs describe what students can typically do if they are *on or above grade level* in reading or if they are *below grade level* in reading. Skills typically held by students who are *below grade level* are shown in the first column. Students who are *on or above grade level* are also expected to have these skills, plus the skills shown in the second column. A student does *not* necessarily need to demonstrate all the listed skills to be classified as *on or above grade level*. Instead, these statements illustrate the knowledge and skills expected of grade 2 students who are on track to be *on or above grade level* in reading in grade 3.

		Below Grade Level	On or Above Grade Level
		Students in this level need support to become on-track to be <i>on or above grade level</i> in reading in grade 3. They typically have partial understanding of the current grade's reading content standards and are building the skills needed to read at grade-level.	Students in this level are on-track to be <i>on or above grade level</i> in reading in grade 3. They have sufficient understanding of the current grade's reading content standards and are on track to be <i>on or above grade level</i> in reading in grade 3.
