

Alabama CTE Equipment List

This list is based on a classroom size of 25 students and meets minimum standards. All costs are estimated. No specific equipment vendor or brand names are endorsed, but school districts should consult with stakeholders to ensure industry-recognized equipment and software are purchased. The intent of this list is to provide school districts with guidance on the equipment needed to cover the state standards for an Educators in Training program and are not meant to dictate the number of students that can safely fit in a classroom and/or laboratory.

Cluster: Education and Training
Program: Educators in Training
