GENERAL INFORMATION

This application is to be completed for individuals seeking a second Interim Employment Certificate (IEC) and **submitted by the employing county/city superintendent or administrator of an eligible nonpublic/private school** directly to the Educator Certification Section of the Alabama State Department of Education (ALSDE).

RECOMMENDATION

To be completed by the employing county/city superintendent or nonpublic/private school administrator.

I recommend this applicant for the second IEC in the area of:

Grades Level(s)	Teaching Field or Instructional Support Area

LEA/NONPUBLIC/PRIVATE SCHOOL AUTHORIZATION and RESPONSIBILITIES

My local board of education is willing to participate in the IEC Approach and has authorized me to employ the individual for whom this application packet is being submitted, subject to the issuance of a valid alternative certificate. I understand the IEC will not be issued for the applicant until all eligibility requirements have been met and background clearance has been received. I have established procedures for monitoring the applicant's compliance with the requirements of the IEC Approach.

I have checked the **current** Alabama State Department of Education (ALSDE) Courses Application within the AIM Portal (courses.alsde.edu) to ensure the applicant is properly certified for each period/block of the day. I understand the applicant must be employed and if the IEC is the only valid certificate held, his/her assignments must be in the specific teaching field and grade level or in the specific instructional support area of the IEC I am requesting. (If found to be needed, the applicant may be assigned for no more than one period/block of the day to a course that is not in the specific teaching field and grade level or in the instructional support area requested *only* if the requested IEC is proper certification for the course). **NOTE: ALSDE Courses must be used and cannot be shredded out**

The IEC in Computer Science, Grades 6-12, is the only teaching field that is proper certification to teach computer science courses that now have a course-specific permit (examples of such courses are: Computer Science Essentials-PLTW, Computer Science Principles AP). **A request to issue a first IEC in an instructional support area or a teaching field other than Computer Science will not be processed if the applicant is scheduled to teach one or more of the computer science courses that now have a course-specific permit.**

The IEC Approach allows up to three IECs to be issued, and all three IECs (*if eligible*) must be held during a four consecutive scholastic year time period.

Failure to appropriately assign the applicant may result in the applicant no longer being eligible to hold an Interim Employment Certificate.

Failure to appropriately assign the applicant will result in an out-of-field penalty assessment for the employing public school system.

IECs issued in **any area of special education, excluding gifted**, require I provide, and the applicant must participate in, high-quality professional development that is sustained, intensive, and classroom-focused **and** a program of intensive supervision that consists of structured guidance and regular ongoing support or a teacher mentoring program. Issuance of the subsequent certificate will require that I have documentation the applicant was provided and participated in both while holding the IEC. If requested by the ALSDE, I must provide this documentation to the Educator Certification Section of the ALSDE.

I am verifying that a photocopy of this form, reflecting signatures, has been given to the applicant and that I have reviewed this document in its entirety for all-inclusive information pertaining to this approach.
