Required Narratives	
<p>How does the LEA plan to use funds to implement prevention and mitigation strategies in order to continuously and safely operate schools for in-person learning?</p> <p>* ARP ESSER funds will be utilized in a variety of ways to provide a cleaner and safer environment within which the students of Winston County will be able to learn. This will be accomplished in three key areas. First, we will evaluate, repair, and/or replace HVAC units throughout the county. This will be done to improve both air exchange rates and filtration. In some cases this may also allow for greater physical distancing as we address current areas that are not being served by HVAC units. The District maintenance department will work to inspect, test, and repair equipment as needed. It is our intent that improved air quality will reduce the risk of virus transmission and exposure to other environmental health hazards. Secondly, the school District will work to replace building roofs on locations deemed in greatest need. This will allow for a reduction in moisture leaks and have a direct impact on the growth of air contaminants. It is our intent that this reduction will also lead to greater air quality and a reduction in student exposure to possible environmental hazards. Finally, the school District will work to replace flooring in locations that are determined to have the greatest impact. It is our intent that this improvement will reduce the number of contaminants on communal surfaces and also allow for easier maintenance and sanitization of surface areas.</p>	
<p>How will the LEA ensure that the evidence-based interventions will address the academic impact of lost instructional time and ensure that those interventions respond to the academic, social, emotional, and mental health needs of all students including underrepresented student subgroups (each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care) and those who are particularly impacted disproportionately by the COVID-19 pandemic?</p> <p>* Winston County Schools will provide learning support through academic interventions conducted by full-time math coaches and part-time reading interventionists during the regular school year. In addition, the District will offer Summer learning and enrichment. District level administration will work with local school administration to regularly analyze student data to determine learning plans and remedial needs. During this analysis, all underrepresented student subgroups will be included in the evidence-based intervention strategies and activities.</p>	
<p>How will the LEA comply with the requirements of section 427 of GEPA (20 U.S.C. 1228a)?</p> <p>The description must include information on the steps the LEA proposes to take to permit students, teachers, and other program beneficiaries to overcome barriers (including barriers based on gender, race, color, national origin, disability, and age) that impede equal access to, or participation in, the ESSER III program.</p> <p>* Winston County Schools strive to remove barriers for all stakeholders, including students, teachers, and other staff (regardless of gender, race, ethnicity, disability, and age). This is addressed by continually promoting a culture that fosters safety, self-worth, and belonging. These qualities allow for equal access of all individuals. When barriers are discovered, they are addressed promptly to eradicate future occurrences.</p>	
<p>How will the LEA actively monitor their allocations, conduct interim audits to ensure an appropriate application of funds, collect and manage data elements required to be reported, and report this information to the community?</p> <p>* The Federal Programs Director and Chief School Financial Officer, along with District level Administrators, will actively monitor ESSER grant allocations and prepare program budgets, budget amendments, and timelines to ensure compliance with requirements. Additionally the Federal Programs Director and the previously listed team members will collect and manage all required data elements. This will be accomplished by a system of collaboration among relevant individuals to collect required data. Additionally, required reporting elements will be made available on the District website for public review. Finally the Federal Programs Director and CSFO will audit purchases made with grant funds to ensure funds are expended as approved by the ARP ESSER grant application.</p>	
<p>How will the LEA meaningfully engage with families and communities throughout the life of the ARP ESSER and other relief funds?</p> <p>* Winston County Schools will actively engage families and community members by posting ARP ESSER plans to the District website for public review. In addition, Winston County Schools will host various family and/or community meetings as needed such as Open House or PTO. Winston County Schools will also provide resources as needed to assist families and communities with interaction and the improvement of academic achievement, while students are at home. Winston County Schools will also work to educate these stakeholders regarding additional school or community-based resources where additional assistance may be obtained. These resources will be posted on the District website. Winston County Schools will also provide support to virtual learners, as needed, to remove barriers to learning and the overall educational process. Finally, Winston County Schools will communicate with parents utilizing technology applications, however other forms of communication will be made available upon request.</p>

ARP ESSER State Reserve Allocation to Address Loss of Instructional Time

The ALSDE is providing a State Reserve allocation to LEAs to address the loss of instructional time through the implementation of evidence-based interventions and ensure that those interventions respond to students' social, emotional, and academic needs and address the disproportionate impact of COVID-19 on underrepresented student subgroups.

For the ARP ESSER State Reserve Allocation, the following interventions are allowable:

1. Summer Learning & Summer Enrichment Programs
2. Comprehensive After-School Programs
3. Other – See Intervention box C for more details.

Required Narratives

Provide a description of the evidence-based program(s) (including partnerships with community-based organizations) the LEA has selected to use with the ARP ESSER State Reserve, and how the LEA will address the disproportionate impact of COVID-19 on certain groups of students, including each major racial and ethnic group, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children and youth in foster care.

* The Winston County School System uses Evidence Based Research (EBR) materials to support instruction and student achievement. As part of the program development process, Winston County School System evaluates all related literature and information on the proposed program, including but not limited to the EBR clearing house through the US Department of Education. If a given program does not meet the EBR standard, then that program is not funded through any federal fund source. Only those programs or materials that meet the EBR guidelines are purchased by federal funding. Winston County School System currently uses the following research based instructional software: Odyssey Ware, Scantron Performance and Achievement Series, SPIRE, Heggerty, NWEA MAP, Reading Horizons Discovery/Clubhouse & Elevate, IXL, Alakids, provides assessment data and instructional practice support to show student learning growth and academic mastery, Odyssey Ware learning software, provides course work and instructional support for student credit advancement and credit recovery, Reading Horizons and IXL software provide reading instruction and practice. These programs are supported by current research illustrating improvement in student academic growth.

Winston County Schools conducts an annual needs assessment for all federal programs. As a part of this district's needs assessment, Winston County compiles data on all subgroups of students, including major racial and ethnic groups, children from low-income families, children with disabilities, English Learners, gender, migrant students, students experiencing homelessness, and children/youth in foster care. Each year every school develops, implements, and monitors the CIP that is specific to the needs of each school. Advisory committees are used to develop goals and action steps. Committees are composed of school and district administrators, teachers, community members, parents and students. Goals and action steps are based on local and state data and are used to guide programs and instruction by all personnel to meet the needs of students and promote their success. This includes assessment, attendance, discipline, culture, and safety data and are used to guide programs and instruction by all personnel to meet the needs of students and promote their success. Plans are developed through multiple meetings where all data is compiled and needs are evaluated and discussed. Implementation of plans are monitored throughout the year for proper execution. Methods of monitoring include surveys, interviews, data files, faculty meetings, and school visits. Homeless students are closely monitored so that there is no danger of them "slipping through a crack." Walk-throughs by principals and district administrators are conducted periodically and the CIP committee meets quarterly to identify strengths and weaknesses and make revisions as needed to the CIP. Documentation is a large component of this process.

The Winston County Children's Policy Council actively supports the needs of children. The council partnering with Winston County School System provides school programs for parents and students addressing issues such as health, parenting, and issues affecting children.

Winston County School System evaluates all program progress yearly to determine effectiveness and needed improvements. Evaluations are based on guidance from the ALSDE along with the goals and objectives of each school's continuous improvement plan. The academic goals and objectives are monitored in all schools. Student academic growth is monitored through evaluation of assessment data provided by instructional software, state and local required assessments.

Using the allocation from the ARP ESSER State Reserve, explain how the LEA will identify and engage

- 1) students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years; and
- 2) students who did not consistently participate in remote instruction when offered during school building closures.

* Administrators, School counselors, the truancy officer, and other school personnel will work collectively to identify students who have missed the most in-person instruction during the 2019-2020 and 2020-2021 school years.

Academic deficits of these identified students will be addressed by interventionist / tutors conducting Tier II and Tier III interventions during the academic year as part of the RTI Process. Students identified as needing additional support will be offered afterschool and summer enrichment opportunities.
