

STATE OF ALABAMA  
DEPARTMENT OF EDUCATION

Eric G. Mackey, Ed.D.  
State Superintendent of Education

April 21, 2021

**REVISED**  
**\*SEE PAGE 2 FOR REVISED DATES**

**MEMORANDUM**

**TO:** City and County Superintendents of Education

**FROM:** Eric G. Mackey *EGM*  
State Superintendent of Education

**RE:** 2021-2022 Early Years Assessments Information

**Approved Assessments:** Pursuant to the Fiscal Year (FY) 2021 ETF Appropriations Bill (Act 2020-169), the chart below shows both reading and math assessment systems that are approved for the Early Years (EY) assessments funds allocated by the FY 2021 ETF available to all local education agencies (LEAs) for 2021-2022.

Approved EY Reading Assessments	Approved EY Math Assessments
<p><i>Recommended by the Literacy Task Force</i></p> <ul style="list-style-type: none"> <li>• aimswebPlus by Pearson Assessments</li> <li>• ISIP by IStation</li> <li>• MAP Suite for Early Learners by NWEA</li> </ul> <p><i>Additional Approved Assessments</i></p> <ul style="list-style-type: none"> <li>• Star Early Literacy &amp; Star Reading by Renaissance</li> <li>• iReady Assessment by Curriculum Associates</li> <li>• mCLASS Alabama Edition by Amplify</li> </ul>	<ul style="list-style-type: none"> <li>• aimswebPlus by Pearson Assessments</li> <li>• ISIP by IStation</li> <li>• MAP Suite for Early Learners by NWEA</li> <li>• Star Early Literacy &amp; Star Reading by Renaissance</li> <li>• iReady Assessment by Curriculum Associates</li> </ul>

The EY assessment systems are to be used by teachers for monitoring the reading and math progress of Grades K-3 students, so that there is a timely adjustment of instruction and intervention for all students. The reading assessment systems may also assist schools in meeting annual screening and reporting requirements of the *Alabama Literacy Act*, Act 2019-523, now codified as Section 16-6G-1, *et. seq.* (Ala. Code 1975). The approved EY assessment systems were selected through the request for proposals (RFP) process by the Alabama State Department of Education (ALSDE) for their alignment with the elements of the RFP. The Alabama Literacy Task Force (LTF), a standing task force created by the *Alabama Literacy Act*, renewed its annual recommendation of the EY reading assessments for the 2021-2022 school year on February 16, 2021.

**Funding and Allocations:** The EY ETF funds will be allocated to LEAs on a \$6 per-pupil basis (Grades K-3) for reading and math. Therefore, early assessment funds will be allocated to LEAs at \$12 per pupil. The per-pupil allocation will be based on the FY 2020 Average Daily Membership (ADM). Allocations are attached. The fund source is 1262 (Major Program 0055, Program 54-20300).

- Alabama State Board of Education
- Governor Kay Ivey  
President
- Jackie Zeigler  
District I  
Vice President
- Tracie West  
District II
- Stephanie Bell  
District III

District IV  
President Pro Tem
- Tonya S. Chestnut, Ed.D.  
District V
- Cynthia McCarty, Ph.D.  
District VI
- Belinda McRae  
District VII
- Wayne Reynolds, Ed.D.  
District VIII
- Eric G. Mackey, Ed.D.  
Secretary and Executive Officer

DISBURSEMENT DATES – NO CARRY OVER	
Year 2—FY 2021 (2021-2022 School Year)	Year 3—FY 2022 (2022-2023 School Year)
First payment - May 2021	First payment - January 2022
Second payment - July 2021	Second payment - July 2022

**Selection Process:** LEAs will contract with the approved assessment system(s) of their choice. Each school **must select, administer, and report data** from one **reading** and one **math** assessment from the approved list. To assist with that selection, updated vendor information, assurances, and pricing (which will remain the same through 2022-2023) are attached and available by [clicking here](#). Questions about individual LEA contracts should be directed to vendor representatives listed in the attachments.

Each LEA will submit the vendor’s name for each school in its district that houses K-3 no later than **May 5, 2021**. [Click Here for the Early Years Assessments Selections Form](#). The form will allow each LEA to submit assessment options for up to 10 elementary schools at a time. If you have more than 10 elementary schools, submit the first set of schools, and then click the “submit another form” button until all schools have been entered.

**Kindergarten Entry Assessment (KEA):** The Alabama Kindergarten Inventory of Developing Skills (AlaKiDS) assists LEAs in the identification of each kindergarten student’s readiness level in independent skills and abilities. Executive function skills are assessed within academic learning environments using an inventory that includes research-based prompts. This process allows kindergarten teachers to assess groups of children at one time. For more information about AlaKiDS, click here <https://children.alabama.gov/alakids/> or contact Mrs. Karen Rutledge-Bell, Alabama Reading Initiative, by email at [krbell@alsde.edu](mailto:krbell@alsde.edu) or by telephone at 334-694-4638.

**Assessment Windows and Reporting Deadlines:** The ALSDE and assessments vendors have streamlined the data reporting process. Vendors will provide reports that will be directly and securely imported into PowerSchool, alleviating much of the burden of data reporting on the LEAs while also safeguarding the accuracy of the data. The LEAs will also directly upload specific data to which vendors do not have access into a secure portal. Instructions for this process will be forthcoming.

Term	EY Assessment Windows**	Reporting Deadlines
Kindergarten Entry Assessment	Initial 3–4 weeks of school	9/17/2021
Beginning of Year	8/2/2021 - 9/17/2021	10/1/2021
Middle of Year	11/1/2021 - 1/14/2022	2/1/2022
End of Year	4/4/2022 - 5/20/2022	6/3/2022
<b>*Summer 2022</b>	Within student's last week of Summer Reading Camp	Two weeks after program conclusion or <b>8/13/2022*</b> , first occurring

\*\*Consult with vendors prior to setting the assessment calendars for your LEAs, as vendors may have preferred dates within these windows. The ALSDE recommends 12 weeks of instruction between assessments when possible.

**Training Opportunities—AlaKiDS:** ARI is working with Teaching Strategies to offer AlaKiDS sessions to new and returning kindergarten teachers and school administrators with kindergarten on their school campus through the Alabama Regional Inservice Centers in the summer of 2021. ARI Regional Literacy Specialists will provide training to kindergarten teachers who are not able to attend summer training. LEAs may also organize individualized training with vendors based on their specific timelines and needs.

## Reading & Math Assessments for Alabama

### aimsweb® Plus

For Reading and Math, **aimswebPlus** is a proven and powerful assessment system that informs instruction and helps improve student performance. aimswebPlus is an assessment, reporting, and data-management system designed to support universal screening, progress monitoring, and RTI / Multi-Tiered Systems of Support (MTSS). **aimswebPlus fulfills the ALSDE compulsory requirements for Alabama schools and districts:**

- Assessments aligned to Alabama and national standards with resources for intervention.
- Scoring and reporting that can be used for annual reporting to the ALSDE.
- All assessment software, including maintenance and upgrades.
- Account management, implementation support, and technical support services.
- Unlimited staff access to an online learning portal and Help Center.

**With the purchase of a student license for bundled Reading and Math assessments, the Alabama purchaser will also receive, at no extra cost, a student license for the Shaywitz DyslexiaScreen™.**

### Shaywitz DyslexiaScreen™

Use the Shaywitz DyslexiaScreen to identify students who may be at risk for dyslexia. This screener's underlying data set actually includes students with dyslexia in the norm sample, along with students without dyslexia. Unlike other reading/literacy systems, the Shaywitz DyslexiaScreen is a true dyslexia screener in its development, norms, and analyses. It is **available through the aimswebPlus system** for a quick, integrated valid, and cost-effective tool to screen for risk of dyslexia. Taking less than five minutes or less per student, the screener was built for wide implementation that is trustworthy, efficient, and cost-effective. Reports are quickly available through the aimswebPlus system.

# FORMATIVE ASSESSMENTS

Get Powerful Data for Reading and Math

Recommended by the Alabama Literacy Task Force, Istation's research-based formative assessments and personalized learning profiles help schools increase engagement and improve outcomes.

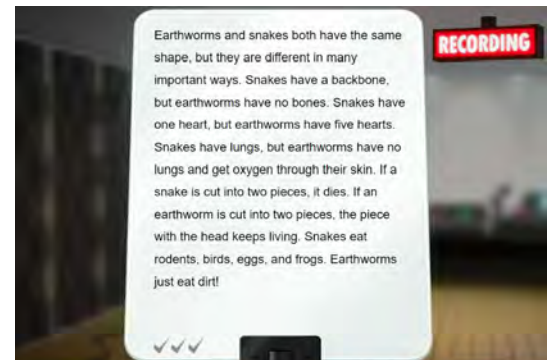

## State Approved & Recommended

Istation's Indicators of Progress (ISIP™) for early reading and math is approved by the Alabama State Department of Education as a valid and reliable screening, formative, and diagnostic assessment program for students in grades K-3.

Supporting the Alabama Literacy Act's annual screening and reporting requirements, ISIP provides real-time formative data and frequent progress monitoring that helps inform interventions, differentiate instruction, and identify students who may be at risk for reading disabilities, including dyslexia and other related disorders.

Recommended by the Alabama Literacy Task Force, the ISIP early reading assessment system includes:

- Alignment to specific early literacy requirements as outlined in the Alabama Literacy Act.
- LEA autonomy to choose an assessment system that best meets their current needs (especially regarding technology capability and community context).
- Availability of future data comparisons to predict success on the Alabama Comprehensive Assessment Program (ACAP).

Digital Oral Reading Fluency assessment with speech recognition technology

Computer-adaptive screeners and progress monitoring for early learners

# All Heroes Start Somewhere

Powered by scientific evidence and comprehensive research, Istation's blended learning approach includes the nationally normed, research-based Istation's Indicators of Progress (ISIP™) for reading and math. These powerful computer-adaptive universal screening programs with flexible progress-monitoring tools deliver actionable and insightful data.

Covering the National Reading Panel's "Big Five" essentials, the National Research Council's strands of mathematical proficiency, and more, Istation is aligned to individual state standards and Common Core State Standards. Istation's assessments, instruction, and teacher-directed lessons also support English-language instruction and special education.

Plus, Istation's digital Oral Reading Fluency assessment combines over three decades of educational research with more than a decade of technical development and data to provide schools with the latest voice recognition and recording technology through a partnership with Boulder Learning, Inc.

## What's Measured

"Big Five" Reading Essentials:

- Phonemic Awareness
- Phonics
- Fluency
- Vocabulary
- Comprehension

The Strands of Mathematical Proficiency:

- Strategic Competence
- Adaptive Reasoning
- Procedural Fluency
- Conceptual Understanding

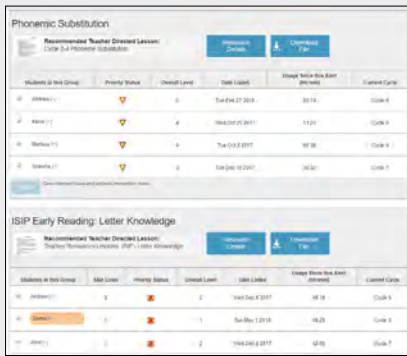

## What's Included

Istation's formative assessments come with unlimited access, comprehensive support, and inclusive resources, including:

- Universal screeners, progress monitoring, and benchmarks
- Monthly assessments and unlimited on-demand progress monitoring
- Real-time reporting with a robust collection of ready-made reports
- Ongoing support throughout the license period
- Single sign-on capability
- Printable teacher-directed lessons (TDLs) to support intervention and instruction
- All software updates and upgrades throughout the license period
- Online professional development options (videos, manuals, and more)
- Vendor-provided data hosting
- Access on PCs, Macs, iPad, Chromebooks and Android devices
- Support on-site, online, by phone and by email

# Personalized Data Profiles

Immediate online reports present accurate results and relevant statistics

## Priority Report

This instructional report identifies which students will benefit from further intervention and provides links to teacher-led lessons and supplemental materials.

## Executive Summary

This assessment report for school and district administrators summarizes current campus results by combining the ISIP Summary Report with the ISIP Skill Growth by Tier Report.

## Summary Report

This detail helps teachers determine which skills need to be retaught by providing a classroom overview of how many students are performing within each instructional level according to skill.

Students in Level 1	ISIP (Current Index)	Percentile Rank	Lexile Level	Usage (Hours)	Current Cycle
Adrian	174	2	BP405L	1.8	Pre-Reading
Amari	164	4	BP410L	2.0	Cycle 1
Amir	165	4	BP420L	1.9	Pre-Reading
Amir	167	4	BP405L	2.0	Cycle 3

Students in Level 2	ISIP (Current Index)	Percentile Rank	Lexile Level	Usage (Hours)	Current Cycle
Amir	179	30	BP420L	2.8	Cycle 1
Amir	207	40	BP420L	3.9	Cycle 1

Students in Level 3	ISIP (Current Index)	Percentile Rank	Lexile Level	Usage (Hours)	Current Cycle
Amir	202	42	BP410L	2.8	Cycle 1
Amir	203	38	SL	3.1	Cycle 3

Students in Level 4	ISIP (Current Index)	Percentile Rank	Lexile Level	Usage (Hours)	Current Cycle
Amir	276	62	20L	1.9	Cycle 1

Students in Level 5	ISIP (Current Index)	Percentile Rank	Lexile Level	Usage (Hours)	Current Cycle
Amir	278	61	85L	3.7	Cycle 1

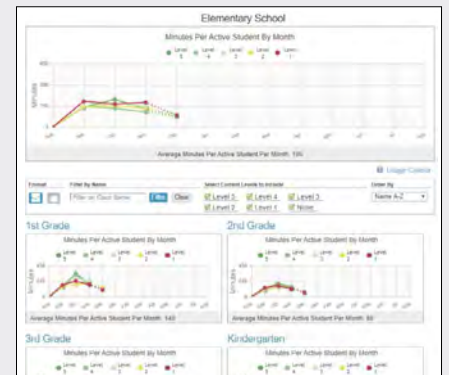

## Classroom Summary

This information supports administration of small-group instruction by grouping students by ISIP instructional levels and tracking skill performance.

## Student Summary Handouts

This report summarizes each student's performance, including usage details, Lexile® measures, ISIP percentile rank, and the latest Priority Report alerts.

## Usage Trend Report

Tracking student usage across the school year, this monthly report provides a level-by-level comparison of average minutes of instruction.

Levels	Intervention Tiers	RTI+
Level 1 At or below the 20 <sup>th</sup> percentile	Tier 3 At or below the 20 <sup>th</sup> percentile	Tier 3 At or below the 25 <sup>th</sup> percentile
Level 2 21 <sup>st</sup> - 40 <sup>th</sup> percentile	Tier 2 21 <sup>st</sup> - 40 <sup>th</sup> percentile	Tier 2 26 <sup>th</sup> - 49 <sup>th</sup> percentile
Level 3 41 <sup>st</sup> - 60 <sup>th</sup> percentile	Tier 1 Above the 40 <sup>th</sup> percentile	Tier 1 Above the 49 <sup>th</sup> percentile
Level 4 61 <sup>st</sup> - 80 <sup>th</sup> percentile		
Level 5 Above the 80 <sup>th</sup> percentile		

## Istation's Multi-tiered Systems of Support

From RTI to MTSS, Istation's formative assessments and teacher-friendly data support intervention and blended learning with three distinct performance scales built to define achievement goals based on any school's strategic needs.

All three performance scales use nationally normed Istation's Indicators of Progress (ISIP™) to determine whether students are on target to meet end-of-year grade-level expectations. Schools can change scales at any time during the academic year.

## Reading

### ISIP Early Reading

Early learners are assessed in less than 30 minutes with an engaging computer-adaptive assessment that features a game show called *Show What You Know!* At the end of the assessment, students see an animated graph of their progress.

Skills assessed:

- Listening Comprehension
- Letter Knowledge
- Vocabulary
- Phonemic Awareness
- Alphabetic Decoding
- Spelling/Word Analysis
- Comprehension
- Text Fluency
- Oral Reading Fluency

### ISIP Oral Reading Fluency

Students enter the Istation Recording Studios to demonstrate their reading accuracy through the oral reading of grade-level passages. Their recordings help measure fluency, accuracy, and more.

Tracked fluency measures include:

- Words correct per minute
- Accuracy
- Errors
- Self-corrections

## Math

### ISIP Early Math

Students are assessed in approximately 30 minutes with an engaging computer-adaptive assessment that measures mathematical skills and concepts. Assessment delivery is presented in a developmentally appropriate format with respect to students' reading skills, fine/gross motor skills, and hand-eye coordination.

Domains assessed:

- Number Sense
- Computations and Algebraic Thinking
- Geometry
- Measurement
- Data Analysis
- Probability

<b>ISIP Assessments (Provided by the ALSDE RFP)</b>	<b>Component</b>	<b>Cost</b>
	ISIP Early Reading	\$ 7.50/student
	ISIP Math	\$ 5.95/student
	ISIP Early Reading and Math Bundle	\$ 12.00/student

<b>Istation Reading Add-on Instruction (Optional)</b>	<b>Unit</b>	<b>Enrollment</b>	<b>Cost</b>
	Student	1-199 students	\$ 32.00/student
	Campus	100-199 students	\$ 2,685
	Campus	200-399 students	\$ 4,640
	Campus	400-599 students	\$ 7,955
	Campus	600+ students	\$ 9,335

<b>Istation Math Add-on Instruction (Optional)</b>	<b>Unit</b>	<b>Enrollment</b>	<b>Cost</b>
	Student	1-199 students	\$ 16.50/student
	Campus	100-199 students	\$ 1,380
	Campus	200-399 students	\$ 2,380
	Campus	400-599 students	\$ 4,030
	Campus	600+ students	\$ 5,120

<b>Professional Development (Optional)</b>	<b>Session Type</b>	<b>Individual Cost</b>	<b>Bundle Cost</b>
	Onsite Full-Day*	\$ 2,800/session	\$ 2,500/session**
	Onsite Half-Day*	\$ 2,000/session	\$ 1,800/session**

\*Up to 40 attendees per session

\*\*Bundle pricing available for districts purchasing 5 or more on-site sessions

<b>Virtual Learning Services (Optional)</b>	<b>Up to 20 Campuses</b>	<b>Over 20 Campuses</b>
	\$ 1,800/district	\$ 3,600/district

Please note: Schools and districts can purchase Reading and Math add-on instruction, Professional Development, and Virtual Learning Services separately.

“ One of the beauties of Istation is that it's adaptive. So my test won't look like yours and won't look like the student sitting next to you. Everybody is basically getting what they need. ”

*Director of Federal Programs and Testing - Hoover, AL*

## NWEA MAP Suite for Early Learners

NWEA® shares Alabama educators' commitment to providing all students with a foundation for academic success. Our MAP® Suite for Early Learners — which includes our MAP Growth™ Reading and Mathematics and MAP Reading Fluency™ assessments — is a reading and mathematics formative and diagnostic assessment solution for grades K–3. In addition to serving as universal screeners, our assessments provide appropriate, evidence-based resources to address knowledge and skills challenges that are identified through our assessments. Our assessments provide valid and reliable data that can be used for annual reporting to the ALSDE. We support our partners with implementation services, custom professional learning, an account manager for the length of the partnership, and ongoing technical assistance.

The MAP Suite for Early Learners is an integrated system of assessments for grades K–3 that gives you a comprehensive picture of every young learner's strengths and areas of need. The assessments can be used to establish a strong foundation for academic success by identifying at-risk students and revealing where they require additional support. MAP Growth assessments measure what students know and inform educators and parents about what they are ready to learn next. The computer adaptive tests are nationally normed and aligned to the Alabama Courses of Study. With its emphasis on overall achievement, normative ranking, and longitudinal growth, MAP Growth supports identification of students at risk, selection of appropriate learning targets and goals, and tracking the efficacy of instruction. Our industry-leading national norms, measurement precision, RIT (Rasch Unit) scales, and ability to measure student test engagement are key elements of our assessments.

MAP Reading Fluency tests are intended to identify students in need of supplemental and intensive support in reading. The categorical reporting of performance levels allows for simple analyses, such as the proportion of students on track to meet reading expectations. With its sub-score reporting, MAP Reading Fluency supports instructional planning for early literacy for whole-group, small-group, and individual instruction.

We currently partner with over 10,000 education organizations worldwide to provide assessment solutions, reports, instructional resources, professional learning, and research services. Our robust platform currently supports over seventy million student test events each year. As a nonprofit that partners with school districts of varying sizes and types around the world, NWEA is committed to building and sustaining long-term partnerships. Alabama local educational agencies (LEAs) will have support from teams across our organization to provide a successful K–3 assessment system for their students and educators.

We will work with each partner to develop a plan that improves student outcomes through implementation services, initial training and ongoing professional learning, and assistance from an Account Manager and our Partner Support team for the length of our partnership. NWEA will assign an Implementation Specialist to each LEA to coordinate access to our assessments. This person will maintain regular contact before, during, and at the conclusion of the first testing term, and be available to answer questions throughout that time. Our Partner Support team provides timely, knowledgeable, and courteous support to thousands of partners around the world. Alabama LEAs may reach our Partner Support team via a toll-free telephone number, email, and our chat support platform in addition to online resources. Our flexible and customizable professional learning can be delivered to individual LEAs in Alabama or through regional sessions. Workshops can be delivered in a variety of modalities to best meet your needs, including onsite, live virtual webinars, and recorded sessions and other on-demand online opportunities.

With the MAP Suite for Early Learners, Alabama educators can fulfill your commitment to helping students in grades K–3 learn to read and develop early mathematics skills.

If your LEA is new to the MAP Suite for Early Learners, please contact Chuck Poer at (662) 538-5227 or [chuck.poer@nwea.org](mailto:chuck.poer@nwea.org) for more information. If your LEA is continuing its use of MAP Suite for Early Learners, please contact Laura Tolone at (971) 200-7372 or [laura.tolone@nwea.org](mailto:laura.tolone@nwea.org).

## Pricing Sheet

Table 1 lists the annual per-student license price for the MAP Suite for Early Learners, which includes MAP Growth and MAP Reading Fluency. Discounts are available based on volume and other factors. NWEA will negotiate with individual local education agencies and/or schools based on the products and services purchased. Premium support services such as program management and onsite technical consulting services are available for an additional fee.

Annual license fees include the following:

- Assessments aligned to Alabama and national standards with resources for intervention
- Scoring and reporting that can be used for annual reporting to the Alabama State Department of Education
- All assessment software, including maintenance and upgrades
- Account management, implementation support, and technical support services
- Unlimited staff access to our online learning portal and Help Center

**Table 1: MAP Suite Per-Student License Price Options**

Assessment	Per-Student License Price
<b>MAP Suite for Early Learners (Reading and Mathematics Bundle)</b> Includes: <ul style="list-style-type: none"> <li>▪ MAP Growth Assessments in Reading, Language Usage*, and Mathematics</li> <li>▪ MAP Reading Fluency</li> </ul>	\$12.00
<b>MAP Suite for Early Learners (Reading Only)</b> Includes: <ul style="list-style-type: none"> <li>▪ MAP Growth Assessments in Reading and Language Usage*</li> <li>▪ MAP Reading Fluency</li> </ul>	\$8.00
<b>MAP Suite for Early Learners (Mathematics Only)</b> <ul style="list-style-type: none"> <li>▪ MAP Growth Assessments in Mathematics</li> </ul>	\$6.00
* <i>Language Usage tests can be administered optionally and are available in grades 2–3.</i>	

### **Headsets for MAP Reading Fluency**

MAP Reading Fluency requires each student to use an over-ear headset with a boom-style microphone. Individual districts can purchase headsets directly through a third party if needed. NWEA estimates the price for headsets to be \$9.65 each.

## Training

NWEA workshops include product training and deeper learning to help educators use data effectively, support strategic planning, and improve instructional practices in order to enhance learning outcomes for all students. Table 2 lists the prices for our workshops. All MAP Growth workshops can cover both reading and mathematics content areas, meaning Alabama districts would not need to purchase separate workshops for each content area.

**Table 2: NWEA Professional Learning Prices**

Workshop	Modality	Pricing Notes	Workshop Price
<b>Implementation and Administration</b>			
<b>MAP Growth Basics</b>	Onsite	Fees include: <ul style="list-style-type: none"> <li>NWEA travel and workshop materials</li> <li>Facilitation services of one trainer per day</li> <li>One 6-hour workshop for up to 40 participants</li> <li>Includes self-paced MAP Growth Basics through Professional Learning Online</li> </ul>	\$3,500 per day* (\$2,500 per day when multiple workshops are purchased by a district or school)

<p>* Onsite half-day workshops are also available at \$3,200 per standalone workshop and \$2,200 when multiple workshops are purchased by a district or school.</p> <p>** Site licenses for on-demand MAP Growth Basics and MAP Reading Fluency Basics online training are included with the purchase of onsite Basics workshops.</p>			

# MAP READING FLUENCY DYSLEXIA SCREENER

## A more complete way to screen early readers

MAP® Reading Fluency™ is growing to give you more comprehensive insight into students' early reading. With the addition of the MAP Reading Fluency Dyslexia Screener, educators get a consistent, efficient, and engaging way to assess every child in grades K–3 for common signs of dyslexia.

### How it works

- Assesses key foundational reading skills, including those most often associated with dyslexia
- Applies a predictive model to flag student results that indicate possible characteristics of dyslexia or other reading difficulties for further evaluation and intervention
- Provides actionable data to inform instruction and drill down into each student's strengths and needs

### Early identification and intervention

Dyslexia screening is an invaluable tool for targeting early intervention. Research shows that early identification and intervention is highly effective in improving long-term reading outcomes. The earlier we can intervene with students likely to struggle, the more effective we can be.<sup>1</sup>

### Screening versus diagnostic

MAP Reading Fluency offers effective dyslexia *screening* for students in kindergarten through third grade, identifying students with increased likelihood of ongoing reading difficulties for further evaluation and intervention. A diagnosis of dyslexia can only be made by a qualified clinician (e.g., a school psychologist).

“Dyslexia is a specific learning disability that is neurobiological in origin. It is characterized by difficulties with accurate and/or fluent word recognition and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.”

INTERNATIONAL DYSLEXIA ASSOCIATION, 2002

<sup>1</sup>Lovett, M. W., Frijters, J. C., Wolf, M., Steinbach, K. A., Sevcik, R. A., & Morris, R. D. (2017). Early intervention for children at risk for reading disabilities: The impact of grade at intervention and individual differences on intervention outcomes. *Journal of Educational Psychology, 109*(7), 889–914.

The MAP Reading Fluency Dyslexia Screener measures the skills with which students with dyslexia and other reading difficulties are likely to struggle.

SKILL AREA	DESCRIPTION	MAP READING FLUENCY DYSLEXIA SCREENER MEASURES
Phonological and phonemic awareness	The ability to recognize and manipulate sounds in spoken language. Phonemic awareness is a subset of phonological awareness and refers to the specific ability to focus on and manipulate individual sounds (phonemes) in spoken words.	<ul style="list-style-type: none"> <li>Rhyme completion</li> <li>Counting syllables</li> <li>Initial sound matching</li> <li>Onset-rime blending</li> <li>Blending phonemes</li> <li>Phoneme counting</li> <li>Phoneme addition/deletion</li> <li>Phoneme substitution</li> </ul>
Sound symbol recognition	The ability to match the letters of written language to the sounds of spoken language.	<ul style="list-style-type: none"> <li>Letter sound fluency</li> </ul>
Alphabet knowledge	The ability to name letters and distinguish letter shapes.	<ul style="list-style-type: none"> <li>Letter knowledge</li> </ul>
Decoding	The process of translating print into speech by rapidly matching a letter or a group of letters to their sounds.	<ul style="list-style-type: none"> <li>Word families: initial letter</li> <li>Decoding: CVC</li> <li>Decoding: single syllable</li> <li>Sentence reading fluency</li> </ul>
Encoding	The process of translating phonological information (sounds) into symbols (a letter or group of letters). Encoding is commonly referred to as spelling.	<ul style="list-style-type: none"> <li>Building words: one letter</li> <li>Building words: CVC</li> <li>Building words: single syllable</li> </ul>
Rapid naming	The ability to quickly retrieve and encode phonological information into spoken words.	<ul style="list-style-type: none"> <li>Rapid naming (objects)</li> </ul>
Vocabulary	Knowledge of word meanings.	<ul style="list-style-type: none"> <li>Picture vocabulary</li> </ul>
Language comprehension	The ability to understand spoken language, measured by matching pictures to spoken sentences.	<ul style="list-style-type: none"> <li>Listening comprehension</li> </ul>

## A better way to manage assessment time

The new dyslexia screener is built on the foundation of MAP Reading Fluency, an adaptive benchmark and progress monitoring assessment that measures foundational skills, oral reading fluency, and literal comprehension. Like MAP Reading Fluency, the dyslexia screener is designed to evaluate students efficiently and effectively.

- Assess an entire class in about 20 minutes
- Save teacher time with automatic scoring
- Get objective results with easy-to-interpret reports

The dyslexia screener matrix report—with screener outcome flags—makes it easy to identify those students who would benefit from additional evaluation and intervention.

# Empower school leaders. Improve student outcomes.

Now more than ever, school leaders need to flex to meet students' unfinished learning and social-emotional learning needs. We are here to help you create meaningful change in school leader practice that has measurable impact on teaching and learning. Through a research-driven, holistic approach, NWEA School Improvement Services partners with you to deliver a customized school improvement plan that empowers school leaders as the central agents of change. The result? More supportive school environments, enhanced instructional quality, and improved student outcomes.

## THEORY OF ACTION

### A proven and effective framework

Our approach to organizing school improvement strategies is grounded in the well-researched and nationally renowned Five Essentials Framework from UChicago Impact. This evidence-based approach focuses on the five essential school-level factors needed to improve student outcomes: Ambitious Instruction, Effective Leaders, Collaborative Teachers, Supportive Environment, and Involved Families.

### Tailored to drive impact

We know that every district and school has unique needs. Our customized approach to school improvement is based on a research-backed needs-assessment process. We work with you to identify your unique needs and improvement areas by thoroughly evaluating current school and district conditions and performance. By pinpointing root causes, we can help you better determine what school improvement services will most effectively help you reach your goals.

### The Five Essentials

Research shows that schools that are strong on at least three of the five essentials were 10 times more likely to show substantial gains in student learning.<sup>1</sup>

- Ambitious Instruction
- Effective Leaders
- Collaborative Teachers
- Supportive Environment
- Involved Families

<sup>1</sup>[https://uchicagoimpact.org/sites/default/files/5framework\\_outreach%26marketing%20%281%29.pdf](https://uchicagoimpact.org/sites/default/files/5framework_outreach%26marketing%20%281%29.pdf)

“

Leadership is second only to classroom instruction among all school-related factors that contribute to what students learn at school.”

-Leithwood, Seashore Louis, Anderson & Wahlstrom, 2004

### **Empowering school leaders**

Activating school leadership to drive change is key to creating school environments that support sustained, continuous improvement. We focus on leader professional learning and coaching across all aspects of school improvement that can impact student outcomes—including supportive environment and involved families—to develop school leader competencies that result in meaningful gains for teaching and learning.

### **An equitable approach supporting both mastery AND growth**

Our model focuses on proficiency and meeting grade-level expectations while also looking at where kids are starting out and their readiness for learning to determine potential instructional adjustments. This ensures a more diverse, inclusive, and equitable approach to supporting growth and proficiency for every child.

### **Using data to inform teaching and learning**

Building on NWEA's deep expertise around the use of student assessment data to inform instruction, we help schools and districts maximize their data and put all the pieces of the puzzle together. We partner with educators to apply insights to all data sources that impact student outcomes—from surveys to assessments to attendance records—to develop, implement, and sustain your plans for school improvement.

# RENAISSANCE

## RENAISSANCE **Star Early Literacy**<sup>®</sup> RENAISSANCE **Star Reading**<sup>®</sup>

Star Early Literacy and Star Reading are designed to be a complete assessment suite, delivering a wide range of actionable data to spark student achievement and sustain growth in minimal testing time. The Star assessments provide essential insights to help all students get on track for reading success: which students are struggling, the specific skills and subskills they're struggling with, and resources and practice activities to remedy those skill gaps. Plus, the Star assessments track progress over time—throughout the school year and from grade to grade—as students respond to instruction and intervention.

For Alabama's early grades reading assessment, included is:

- **Star Early Literacy** (designed for grades pre-K–3) and **Star Reading** (designed for grades K–12) nationally normed, computer-adaptive assessments that are aligned to the Alabama College- and Career-Ready Standards (CCRS). The Star assessments concentrate content at a student's current performance level—regardless if it is at, above, or below grade level—to reduce testing frustration and ensure accurate results.
- **Star Spanish** (designed for grades pre-K–12) editions of the Star Early Literacy and Star Reading assessments that allow teachers to discern the literacy skills native Spanish-speaking students already possess but may not yet be able to express in English.
- **Alabama-specific learning progressions for reading** which map the skills Alabama students need to meet grade-level expectations, present these skills in teachable order, and cross-link to prerequisite skills. In support of instruction, intervention, and practice, Alabama educators may access skills-based instructional resources directly through the learning progression.

The Star assessments provide specific advantages for all involved in the educational process:

- **For the student:** The Star assessments provide a challenging, interactive, and brief test that builds student confidence in their reading ability.
- **For the teacher:** The Star assessments facilitate individual instruction by identifying children who need remediation or enrichment the most.
- **For the principal:** The Star assessments include regular and accurate reports on performance at the class, grade, and building level.
- **For the district administrators and assessment specialists:** The Star assessments provide a wealth of reliable and timely data on reading growth for each school.

For additional information or to schedule a demonstration of the Star assessments for early grades, please contact Rachael Walker at (866) 391-5340 or [rachael.walker@renaissance.com](mailto:rachael.walker@renaissance.com).

# RENAISSANCE

## RENAISSANCE Star Math®

Star Math is designed to be a complete assessment solution, delivering a wide range of actionable data to spark student achievement and sustain growth in minimal testing time. With Star Math, one test provides essential insights to help all students get on track for math success: which students are struggling, the specific skills and subskills they're struggling with, and resources and practice activities to remedy those skill gaps. Plus, Star Math tracks progress over time—throughout the school year and from grade to grade—as students respond to instruction and intervention.

For Alabama's early grades math assessment, included is:

- **Star Math** which assesses math achievement in the domains of Counting and Cardinality, Operations and Algebraic Thinking, Number and Operations in Base Ten, Number and Operations—Fractions, Measurement and Data, and Geometry nationally normed, computer-adaptive assessment that is aligned to the Alabama College- and Career-Ready Standards (CCRS). Star Math concentrates content at a student's current performance level—regardless if it is at, above, or below grade level—to reduce testing frustration and ensure accurate results. Embedded audio support is available for questions (or stems) that involve reading, for items with difficult words, and for answer choices that contain text that may pose significant difficulty to early or struggling readers.
- **Curriculum-based measures for kindergarten.** Beginning September 1, 2020, kindergarten students will be assessed using curriculum-based measures (CBM) probes in numeral recognition, quantity comparison, and addition to 10.
- **Star in Spanish** edition of the Star Math assessment that allows teachers to discern the math skills native Spanish-speaking students already possess but may not yet be able to express in English.
- **Alabama-specific learning progression for math** which maps the skills Alabama students need to meet grade-level expectations, presents these skills in teachable order, and cross-links to prerequisite skills. In support of instruction, intervention, and practice, Alabama educators may access skills-based instructional resources directly through the learning progression.

The Star assessments provide specific advantages for all involved in the educational process:

- **For the student:** Star Math provides a challenging, interactive, and brief test that builds student confidence in their math ability.
- **For the teacher:** Star Math facilitates individual instruction by identifying children who need remediation or enrichment the most.
- **For the principal:** Star Math includes regular and accurate reports on performance at the class, grade, and building level.
- **For the district administrators and assessment specialists:** Star Math provides a wealth of reliable and timely data on math growth for each school.

For additional information or to schedule a demonstration of Star Math for early grades, please contact Rachael Walker at (866) 391-5340 or [rachael.walker@renaissance.com](mailto:rachael.walker@renaissance.com).

## Star assessment system pricing options

The following is the Star assessments cost proposal for Alabama early grades reading and math assessments.

Service/product	Cost
<b>Star Early Literacy and Star Reading assessments system</b> —inclusive of any applicable student subscriptions for Star Early Literacy and Star Reading, setup fees, and hosting fees	\$4.50 per student
<b>Star Math assessment system</b> —inclusive of any applicable student subscriptions for Star Math, setup fees, and hosting fees	\$4.50 per student
<b>Star assessments for reading and math system</b> —inclusive of any applicable student subscriptions for Star Early Literacy, Star Reading, and Star Math setup fees, and hosting fees	\$8.00 per student

**Please note:**

- Unlimited e-mail, toll-free phone, and live chat support with our team of technical experts from 6:30 am to 7:00 pm (central time), Monday through Friday is included free of charge. These experts provide a variety of services to help with setup, support, and troubleshooting of Renaissance programs.
- Licensee shall pay the Fees within 30 days of Renaissance’s invoice. Any amounts owed by the Licensee under this Agreement that are not paid when due (and not subject to a good faith dispute), shall bear interest, from the time the payment was due until the time paid, at a rate of one percent per month compounded monthly, or if lower, the highest rate allowed by law. Notwithstanding any language to the contrary contained therein, no terms or conditions stated in a Licensee purchase order or in any other Licensee order documentation shall be incorporated into or form any part of this Agreement and all such terms and conditions shall be null and void. Failure to pay the Fees in accordance with the Agreement shall constitute a material breach by Licensee.
- This per student pricing will be held firm for two years from the publication of approved vendor list.

For additional information or to schedule a demonstration of the Star assessments for early grades, please contact Rachael Walker at (866) 391-5340 or [rachael.walker@renaissance.com](mailto:rachael.walker@renaissance.com).

## Built to Meet the Needs of Alabama Educators

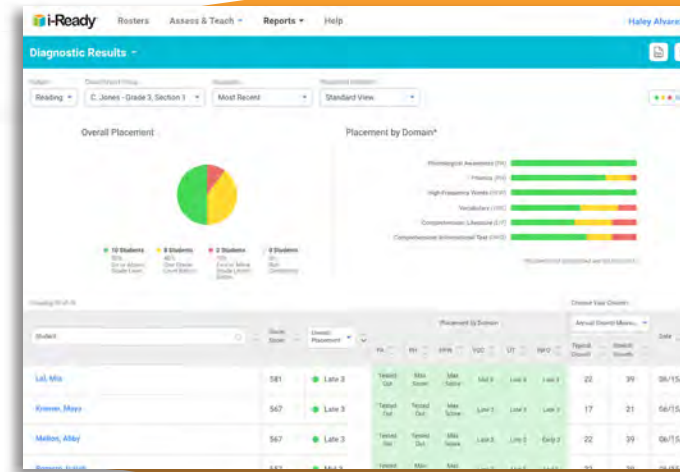

Curriculum Associates is pleased to offer *i-Ready Assessment* for **Reading** to Alabama school districts as an approved Early Grades (K–3) Reading Assessment.

The rich data from *i-Ready Assessment* empowers teachers with a deeper knowledge of their students' needs. Based on industry-leading research into assessment design, and backed by extensive validity evidence, sophisticated data is transformed into meaningful, actionable insights that make differentiating instruction a reality for teachers.

A suite of intuitive reports provides a common language through which both teachers and administrators can work toward the shared goal of student achievement.

The *i-Ready Assessment* suite:

- Pinpoints students' strengths and knowledge gaps at the sub-skill level
- Delivers individualized learning paths in *i-Ready Personalized Instruction* (available as a cost option)
- Saves time by automatically grouping students and offering targeted instructional recommendations
- Helps educators spot trends across student groups

### Highly Correlated with ACAP

Included components:

- **Diagnostic (K–12):** Adaptive, standards-aligned, criterion-referenced assessment administered three times per year that provides normative information and actionable insight into student needs, performance, and growth.
- **Tools for Instruction (K–8):** Lesson plans that teachers can use to address skills gaps identified by the Diagnostic.
- **Growth Monitoring (K–8):** An ongoing measure of student progress administered monthly that gives educators an opportunity to check for growth.
- **Standards Mastery (2–8):** Has multiple forms that can be used within day-to-day classroom instruction and as the district common assessment.

Reading domains measured on the *i-Ready Diagnostic* include Phonological Awareness, Phonics, High-Frequency Words, Vocabulary, Comprehension: Literature, and Comprehension: Informational Text. The Diagnostic is designed to be accessible to a wide range of students and has achieved WCAG 2.0 AA compliance with documented exceptions.

## Teacher Toolbox Pricing

Site licenses can be purchased for *Teacher Toolbox* for Mathematics (Grades K–8) or *Teacher Toolbox* for Reading (Grades K–8) and Writing (Grades 2–5) at the following prices:

Enrollment	Single Teacher Toolbox**	Both Teacher Toolboxes**
	<200	\$1,200
201–350	\$2,200	\$4,400
351–500	\$3,300	\$6,600
501–800	\$3,800	\$7,600
801–1,200	\$4,700	\$9,400
1,201+	\$5,100	\$10,200

\*\*If purchasing with *i-Ready* or *Ready*, a 15% Blended Learning discount is applied to the Teacher Toolbox list pricing.

Individual professional development sessions are \$2,000.00 per session (List Price), which can be discounted 25 percent to \$1,500.00 per session (Net Price) when minimum professional development is purchased. Two on-site days are recommended for an implementation of *i-Ready Assessment*. (Maximum of 30 participants in a session at any one time.) Centralized Leadership sessions of up to three hours are offered free at a 1:10 site ratio.

**Note:** Multiyear discounts available when multiple years are purchased up front. Contact your sales representative for details. Site license tiers based on total site student enrollment.

Teacher Toolbox can be purchased as a standalone or with *i-Ready* or *Ready*.

Prices and product availability are subject to change without notice.

# *i-Ready* and the Alabama Literacy Act

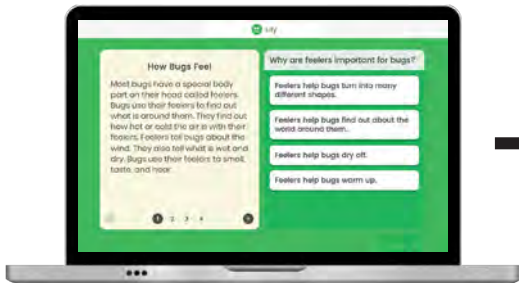

## Putting Powerful Literacy Data in the Hands of Alabama Educators

The Alabama Literacy Act’s reading deficiency identification screening guidelines help educators evaluate student strengths and challenges with the goal of helping all students in Alabama become successful readers. *i-Ready* is a comprehensive assessment and instruction system that can address the Literacy Act’s requirements and help educators with their students’ early learning needs.

### Measure Literacy in Appropriate Ways

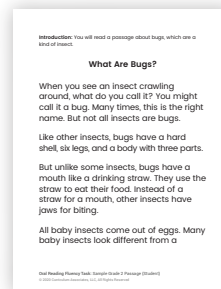

Some literacy assessments are fully digital, but they don’t give educators direct visibility into the literacy needs of students. Other assessments are a fully teacher-administered, one-on-one experience, which may reduce time for instruction. ***i-Ready* offers both strategies:**

#### Digital Assessment

***i-Ready Diagnostic*** assesses Literacy Act concepts that are best measured digitally.

#### Offline Assessments

**NEW *i-Ready* Early Reading Tasks** and ***i-Ready* Oral Reading Fluency Assessments** measure skills that provide valuable insights when administered one on one.

Over 200 New  
One-on-One  
Administered  
Forms

### Collect and Use Data to Help Improve Literacy

- Literacy Act requirements measured by the *i-Ready Diagnostic* are supported by **easy-to-use digital reports** that are immediately available to educators.
- **User-friendly spreadsheets** have been developed to organize the data from the *i-Ready* Early Reading Tasks and *i-Ready* Oral Reading Fluency Assessments so that educators can use this data set for evaluation and instructional planning.

# ATTACHMENT 5B

## Multiple Methods to Measure Early Literacy in Alabama

### *i-Ready Diagnostic*

- Phonics (K–3)
- Phonological Awareness (K–2)
- High-Frequency Words (K–3)
- Vocabulary (K–3)
- Comprehension: Literature (K–3)
- Comprehension: Informational Texts (K–3)

### *i-Ready Oral Reading Fluency Assessments*

- Benchmark Assessments (1–6)
- Formative Assessments (1–4)
- Progress Monitoring Assessments (1–6)

### *i-Ready Early Reading Tasks (K–3)*

#### Rapid Automatized Naming (RAN)

Students' automaticity can be measured using non-alphanumeric and alphanumeric stimuli.

##### Forms Available for:

- Objects
- Colors
- Letters
- Numerals

#### Phonological Awareness

Students' phonological awareness skills can be measured as they increase in sophistication.

##### Forms Available for:

##### Basic Phonological Awareness

- Syllables (blend, segment, add, delete)
- Onset-Rime (blend, segment, add, delete)

##### Basic Phonemic Awareness

- Blend
- Segment

##### Advanced Phonemic Awareness

- Phoneme Manipulation (addition, deletion, substitution)

#### Letter Naming Fluency

Students' letter naming fluency can be measured. Additionally, Mixed Case forms can be used as a rapid automatized naming measurement for some students.

##### Forms Available for:

- Uppercase Letters
- Lowercase Letters
- Mixed Case Letters

#### Letter Sound Fluency

Students' letter sound fluency can be measured.

##### Forms Available for:

- Uppercase Letters
- Lowercase Letters
- Mixed-Case Letters

#### Word Reading Fluency

Students' automatic word recognition and decoding skills can be measured on grade-level appropriate and high-frequency words and pseudowords that reflect grade-level decoding ability.

##### Forms Available for:

- Real Words and Nonsense Words

#### Spelling and Encoding Skills

Students' spelling of familiar words and encoding of less familiar, decodable words are assessed based on grade-level expectations.

##### Forms Available for:

- Spelling and Encoding

# Amplify and mCLASS® Alabama Edition

## What is mCLASS® Alabama Edition?

mCLASS is a state-approved mobile suite of early literacy universal screening, dyslexia screening, and progress-monitoring assessments for grades K–3 that measure critical foundational reading skills, fluency, and comprehension with direct links to instructional resources and parent support.

We share the goal to have all students become confident readers by third grade. mCLASS gives teachers critical information in half the time versus paper Dynamic Indicators of Basic Early Literacy Skills (DIBELS®) assessments, so teachers can use this valuable time to nurture their students.

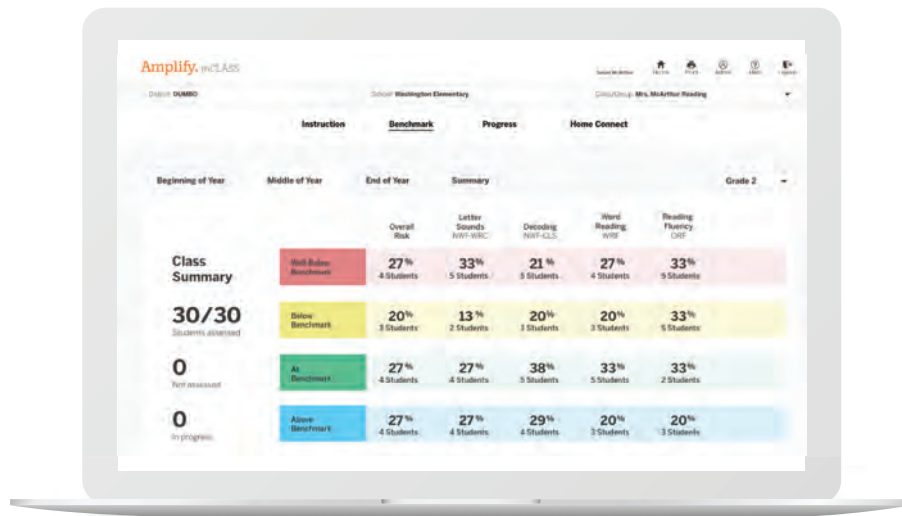

The mCLASS Alabama Edition offers developmentally appropriate assessments that directly measure critical developmental literacy skills:

- **DIBELS® 8th Edition:** the only mobile version of the DIBELS assessment, which has been directly validated for use in screening for reading difficulties including dyslexia.
- **Additional dyslexia screening measures:** additional Amplify-created measures of Spelling, Oral Language, and Vocabulary to supplement DIBELS 8th Edition measures in screening for reading difficulties, including dyslexia.

## mCLASS Alabama Edition provides better data, leading to better instruction, including:

- Dynamic student grouping based on specific skill areas critical to literacy development, and subsequent targeted lessons for small groups
- An individualized student profile that provides individualized lessons for each student
- Parent letters and a parent portal, in both English and Spanish, so parents and guardians can support their child's literacy development at home to extend the learning day

mCLASS places students into Amplify Reading for student-driven, adaptive skills instruction in an engaging gaming environment and into mCLASS Intervention for small-group targeted intervention. Amplify Reading and mCLASS Intervention are available for additional purchase.

## AL Literacy Act (K–3) Reading Assessment and mCLASS

Please see below for mCLASS alignment with state recommendations for universal screening and dyslexia screening.

AL Screening Area Requirements	mCLASS Measures	Description of Assessment
Alphabet Knowledge	DIBELS 8th Edition Letter Naming Fluency (LNF)	Students identify randomly mixed uppercase and lowercase letter names.
Phonological and Phonemic Awareness	DIBELS 8th Edition Phoneme Segmentation Fluency (PSF)	Students segment the sounds in orally presented words. Students can segment by onset-rime, syllables, or complete phonemes.
Alphabetic Principle, Decoding, and Phonics	DIBELS 8th Nonsense Word Fluency (NWF)	Students apply the alphabetic principle to produce letter sounds and blend them into words and read whole words out loud.
Phonics and Word Recognition	DIBELS 8th Word Reading Fluency (WRF)	Assesses students' ability to read words that include words with irregular pronunciations as well as common words with regular pronunciations.
Accuracy and Fluency	DIBELS 8th Oral Reading Fluency (ORF)	Students read aloud grade-level passages to evaluate oral reading fluency and accuracy.
Reading Comprehension	DIBELS 8th Maze	In this online, group-administered measure, students read the passage silently and select the word in each box that best fits the meaning of the sentence.
Vocabulary	mCLASS Vocabulary	In this online, group-administered measure, students complete fill in the blank items or match words to their basic definitions.
Encoding	mCLASS Spelling	In this online, group-administered measure, a target word is spoken (by the computer) and the student uses letter tiles to spell the word.
Oral Language	mCLASS Oral Language Screener	Students listen to sentences read aloud and must repeat the sentences.

## DIBELS 8th Edition improvements

DIBELS 8th Edition is a more comprehensive literacy assessment system that expands on and refines features of previous DIBELS editions and adds exciting and innovative new features.

The University of Oregon revised and added new DIBELS measures:

- ✓ PSF replaces First Sound Fluency.
- ✓ ORF is now only one passage and Retell/Quality has been removed.

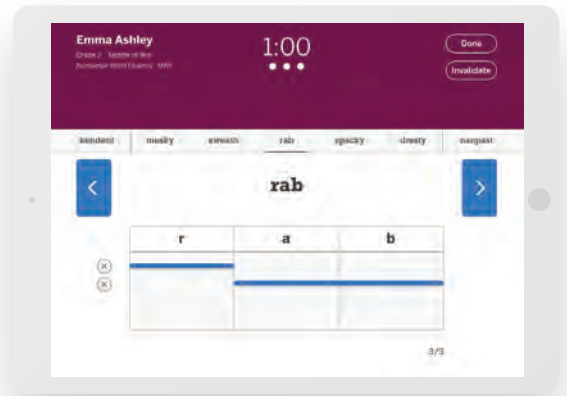

Deeper support for all students:

- ✓ Items increase in difficulty and cover full progression of skills, removing floor and ceiling effects.
- ✓ A broader range of word patterns in measures yields greater diagnostic data.
- ✓ Consistent subtests within grade for improved growth measurement.

Improved screening for dyslexia risk:

- ✓ Revisions allow better measurement of phonological processing time, which is a key indicator of dyslexia risk.
- ✓ Validated for both universal screening of reading difficulties and dyslexia risk.

DIBELS 8th Edition's adaptive procedures save even more time—beyond just switching from paper—and prevent overtesting.

## Support and professional development

Amplify provides all educators with nine (9) complimentary pre-recorded training webinars available on-demand throughout the year via mCLASS online portal.

Half-day and full-day onsite training and half-day and full-day remote training sessions are available for purchase.

All licenses include mCLASS Alabama Edition, including maintenance and upgrades, account management, implementation support, technical support services via chat, email and phone, and unlimited staff access to the mCLASS online portal and help center.

**For more information, visit [amplify.com/mclass](https://amplify.com/mclass) or call (800) 823-1969.**

# mCLASS<sup>®</sup> Alabama Edition pricing

## mCLASS Alabama Edition annual licenses: \$6 per student

### What's included:

- State-approved assessments aligned to Alabama and national standards with resources for intervention.
  - DIBELS<sup>®</sup> 8th Edition: the only mobile version of the DIBELS assessment, which has been directly validated for use in screening for reading difficulties including dyslexia.
  - Additional dyslexia screening measures: additional Amplify-created measures of Spelling, Oral Language, and Vocabulary to supplement DIBELS 8th Edition measures in screening for reading difficulties, including dyslexia.
- mCLASS alignment with Alabama requirements for universal screening and dyslexia screening.
- Scoring and reporting that can be used for annual reporting to the ALSDE.
- All assessment software, including maintenance and upgrades, with the following features included:
  - Dynamic student grouping based on specific skill areas critical to literacy development, and subsequent targeted lessons for small groups.
  - An individualized student profile that provides individualized lessons for each student.
  - Parent letters and a parent portal, in both English and Spanish, so parents and guardians can support their child's literacy development at home to extend the learning day.
- Account management, implementation support, and technical support services.
- Unlimited staff access to an online learning portal and Help Center, including nine (9) complimentary pre-recorded training webinars throughout the year via mCLASS Home.
