Education and Training Cluster Program Guide

Education and Training focuses on preparing the next generation of educators to serve children and youth from birth through twelfth grade. Courses are designed to acquaint students with the wide variety of careers in the education field and to give them a head start on preparation for classroom teaching. After completing Foundations in Education, students may choose courses leading through one of two programs: Educators in Training and Early Childhood Education.

Early Childhood Education Program (Must teach three courses from this program list within two years)			
The Early Childhood Education program focuses on careers in infant, toddler, and preschool programs, with emphasis on child development, health and safety, learning environment, classroom practices, observation and assessment, professionalism, and program management. Internship experiences are an important component of the Early Childhood Education Program.

Career Pathway Program	Educators in Training Program (Must teach three courses from this program list within two years) The Educators in Training program focuses on preparing future elementary, middle, and high school educators. These courses give students an overview of the opportunities available to educators as well as the specific skills needed to succeed in educational careers. Experiential learning is an essential component of all courses within this program. Internship or observation opportunities are available for all courses.

To meet the CCR Indicator as a CTE completer, a student must earn three (3.0) credits with the grade of a “C” or higher in CTE courses that are part of an approved CTE program of study. Additional requirements are outlined in [Memorandum FY22-2065](#).

This matrix is intended for general guidance on the CCR completer status and is subject to change. For all CTE programming information, please refer to the CTE Cluster specific Program Guide. It contains a list of approved CTE programs, valid course numbers, approved Career Readiness Indicators (CRIs), and in demand occupations.

***Courses are listed in alphabetical order, not in sequential order.**
